**Patina Volkswagens** Dec 23 2021 Since the early 2000s, the apparent explosion of interest in Volkswagens with original paint, rust and patina has inspired a generation of car fanatics, who might not be able to afford to restore a car to show condition, but still want a good looking, cool car that will stand out from the crowd. Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it's easy to see why; these cars are rare, unspoiled survivors – cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media; even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Pritchard of TV's 'Salvage Hunters' fame.

**Ford AOD Transmissions** May 16 2021 While millions of Ford rear-wheel-drive cars are equipped with the durable and simple C4 and C6 transmissions of the 1960s, early in the 1980s Ford replaced those old designs with the AOD transmission for a new generation of cars. Overdrive gears, once popular before WWII, were now becoming popular again, as manufacturers were under increasing pressure to raise fuel economy to meet ever more demanding EPA standards. A nice byproduct of that was more comfortable cruising speeds, where your engine didn't have to work so hard in addition to getting better fuel economy. In *Ford AOD Transmissions: Rebuilding and Modifying the AOD, AODE and 4R70W*, author George Reid walks you through the process step-by-step, from removing the transmission from the vehicle, to complete disassembly and cleaning, to careful reassembly, to proper re-installation and road testing. Performance modifications are also covered, as well as an ID guide for various model numbers, evolutionary design changes, shift kit installation, and torque converter selection. This book is ideal for people who already have one of these transmissions in their car, as well as enthusiasts who would like to swap one of these more modern units into an older chassis to get all the benefits of overdrive. If you plan on researching or working on any one of these overdrive models, this book is a vital addition to your workbench or library.

*Crayon to CAD* Nov 09 2020 Written by an Australian automotive designer with 45 years' experience, 'Crayon to CAD' is a unique book about cars and people, places and technologies. In engaging, non-technical language, 'Crayon to CAD' tracks the progress of automotive designers and their work in Australia, from drawing board and crayon to sophisticated computer technologies (CAD). Central to the history of post-war automotive design in Australia are stories of individuals throughout the decades. 'Crayon to CAD' features biographical chronicles of over 20 industry luminaries, all with wide-ranging backgrounds and experience. Although the book's storyline focusses on Australian mass-volume manufacturers - Ford, Holden, Chrysler/Mitsubishi, Toyota, Nissan and BMC/Leyland - it also showcases low-volume niche manufacturers such as Bolwell, Giocattolo and Buckle. A highlight of 'Crayon to CAD' is the inclusion of 'insider' material, drawn from the author's extensive experience and published here for the first time. Information and many images with in-depth captions have been sourced from previously-unreleased corporate and private archives. This 336-page limited edition hardback coffee table book, features both archival black-and-white photographs and illustrations, as well as lavish full-page colour images. The first 100 Collector's Edition copies are presented in a deluxe slipcase, individually numbered and signed by the author. 'Crayon to CAD' has been written as an acknowledgment to Australian automotive designers, recognising their significant contribution to iconic Australian cars and motoring history.

**Best Seat in the House** Apr 26 2022 As a broadcaster and motorsports legend, Neil 'Crompo' Crompton has had the best seat in the house for the last 40 years of Australian motorsport. From Allan Moffat to Jamie Whincup, Supercars to Sportscars and the Bathurst 1000 to the Indianapolis 500, Neil has had a front-row seat to see the biggest names, machines and events of this high-speed, high-octane sport. As a kid from Ballarat in country Victoria, Neil was obsessed by speed. It was a passion that would take him to the top of motorsport and see him, at 28 years old, lining up on the grid at the Bathurst 1000, driving for a team run by his childhood hero, Peter Brock. Over more than 30 years, Neil has raced wheel-to-wheel with some of the biggest stars the sport has ever seen in this country - from the brilliance of Mark Skaife to the sheer speed of Craig Lowndes. Neil has seen and done it all: thrilling wins, heartbreaking disappointments and witnessing the tragedy of competitors and mates lost to the sport they all loved. Since 2003, as the trusted and respected modern-day voice and face of Supercars racing on television in Australia, Neil has added the audio soundtrack from the commentary box to some of the most iconic moments in the sport. Best Seat in the House is an unputdownable memoir of one of Australia's leading motor-racing and automotive industry personalities.

**Ford Y-Block Engines: How to Rebuild & Modify** Aug 19 2021 As Ford's follow-up to the famous flathead, the Y-block was Ford's first overhead-valve V-8 and it established an impressive high-performance legacy, winning many races in NASCAR and setting records at the Bonneville Salt Flats. This venerable Ford engine, which powers classic Thunderbirds, Crown Victorias, Edsels, and other cars, is enjoying a performance renaissance. Many aftermarket parts, including heads, can turn a sedate Y-block into a powerhouse. The engine earned its name from its deep-skirt block design that looked like a "Y." This stout engine was installed in millions of Ford cars from 1954 to 1962 and Ford trucks from 1952 to 1964. Author and Ford tech expert Charles Morris explains each critical aspect of rebuilding a stock 239-, 256-, 272-, 292-, and 312-ci Y-block and building a modified Y-block. He shows you how to identify components and conduct a thorough inspection so you select a sound block, heads, intake, and other components. He explains the specifics for obtaining high-quality machining work and verifying clearances. In addition, he delves into the intricacies of each step of the assembly process so you can rebuild a strong-running and reliable engine. Most important, Morris details the steps to effectively remedy the Y-block oiling problems. This is the book Ford Y-block owners and fans have been waiting for. It's an indispensable guide for performing a professional-caliber rebuild and buildup of the Y-block.

**Bathurst Every Car, the Photographic History 1990-1999** Jul 30 2022 THE first of an exciting new book series from the V8 Sleuth team, 'Bathurst: Every Car, The Photographic History, 1990-1999' is a must-have for any motorsport fan. This 256-page hardcover collector's book brings to life 'The Great Race' in the 1990s and, at its core, includes a photo of every single car to compete in the Bathurst 1000 in the 1990s across the Group A, five-litre V8, Super Touring and V8 Supercar categories. In addition to the cars that took the start on race day, this book also includes images of those cars that didn't start the race despite taking part in practice and/or qualifying. This series of books has been inspired by V8 Sleuth's sold-out books from previous years documenting every Holden and every Ford to compete in the Bathurst 1000. In addition to Holden and Ford, a variety of manufacturers take centre stage within the pages of this book focused on the 1990s. BMW, Toyota, Nissan, Audi, Volvo and many more will bring readers many amazing memories of the cars that have tackled Mount Panorama. Also included in the special publication is: -Information on each car's photo, with driver names, team names, make and model, race times, qualifying times and positions and assorted notes listed for each. -An introduction chapter for each

year's race, from the 1990 Tooheys 1000 right through to the 1999 FAI 1000.-A dedicated statistical section breaking down the achievers in the Bathurst 'Great Race' from 1990 to 1999.As a special bonus, the 1999 Bob Jane T-Marts Bathurst 500 for Super Tourers is also included in the book alongside the 1000-kilometre races with images of every car from that often over-looked race.This is a unique Bathurst book that is a must-have for the collection of hardcore and casual motorsport and Bathurst 1000 fans alike.This book is the first in a new series of publications by the V8 Sleuth team that will focus on the history of the Bathurst 'Great Race' by decade and based upon the 'every car, every race' format.
