*Trinidad Yoruba* Jun 12 2021 Offers a comprehensive  
description of the West African language of Yoruba as it has  
been used on the island of Trinidad, addressing the  
experience of Africans in Trinidad and examining the nature  
of their social and linguistic heritage as it was modified  
and discarded in the European-dominated island community.

Explains linguistic structures, analyzing Trinidad Yoruba as a distinct dialect of African Yoruba, and discusses the creolization process. Includes a Yoruba lexicon. Annotation copyright by Book News, Inc., Portland, OR

A Birdwatcher's Guide to Trinidad & Tobago May 12 2021

Describes various sites that have been visited, verified and been given revised text. This book provides bar graphs of seasonal distribution and sections on selected species of birds. It has a brief summary of the islands' biota, lists of mammals, amphibians and reptiles. It has travel advice and information on local contacts and societies.

"Author claims to have included well-known individuals like Eric Williams and C.L.R. James, as well as less well-known figures like Sookoo. In addition to citing individuals such as Princess Margaret, who merely visited Trinidad and Tobago, he has included names of horses, ships, games, etc., while omitting major figures such as Francis De Ridder. Of some use nonetheless"--Handbook of Latin American Studies, v. 58.

*Trinidad and Tobago Adventure Guide* May 24 2022 Although definitely a part of the Caribbean, these two islands are unique, refusing to conform with the stock Caribbean image created by glossy brochures and travel agencies. They are both generous and Caribbean-spirited, but quite capable of going their own way. This Adventure Guide takes you across the nation from mountains and hills to grasslands, savannahs and palm-lined beaches, offering the intrepid traveler a ticket to explore. Birdwatchers are drawn by the chance to see the beautiful scarlet ibis. Night-time excursions allow visitors to watch the miraculous egg-laying practices of the leatherback turtle. And caiman smaller versions of the South's alligators are a common sight. And then there's Carnival, which offers wild dances, fantastical costumes and frenzied revellers. Whatever your reason to visit T&T, you have the right guide in hand. Accommodations, restaurants, travel tips, sights, museums, excursions it's all here. A special section is dedicated to the nation's booming yachting industry, with details on marinas, facilities and

services. "I wish I'd had this book the first time I visited Trinidad and Tobago. The book fully describes the culture of these island people and this knowledge would make a trip to these wonderful islands even more enjoyable. I also believe it's a good choice for readers who can't make the trip but still want to taste the culture." -- Amazon customer "I've been to TNT once for two weeks and am returning again in a few months. I bought the book to refresh my memory and, more importantly, get me excited about my return trip. It's a great read, and as the back cover suggests, it really is written for the traveler who wants to experience more than just sunbathing. However, once you've been to Trinidad and Tobago, you discover that they are not your generic Caribbean islands. Visiting Trinidad and Tobago is more of a cultural vacation than an island getaway. Once you step foot off the plane at Piarco airport, you'll never want to leave, or you'll want to go back once every year. The two islands are full of charisma, and O'Donnell and Pefkaros do a good job of capturing this spirit in the book. You really cannot be intimidated by the cultures of TNT. From the street vendor corn soup, to crab and dumplings, "down de islands", Maracas, Pigeon Point, Speyside, fried flying fish, Caribs, lorries, maxis, wining, Trinidad's great bar/club scene, the Northern Range, etc. - this book virtually covers all Trinidad and Tobago vacation opportunities and experiences." -- Amazon customer "An excellent take-long tote, as is the more adventurous Trinidad & Tobago, 2nd Edition by Kathleen O'Donnell and Stassi Pefkaros, which updates information on adventure travel with special focus on the wildlife and culture of the islands." -- Midwest Book Review

**In Trinidad** Sep 15 2021 "In Trinidad is the first photographic book to document the complex issues of post-colonial Trinidad identity primarily through visual means. Puerto Rican photographer Pablo Delano has over the period of a decade photographed ordinary Trinidadians at work, at play, at worship - in their homes, on the streets, and in their vocational niches. His reproduced black and white photographs capture the essence of a uniquely intercultural Caribbean people, paradoxically poised between oil and

natural gas-driven postindustrial capital development and earlier rhythms keyed to seasons of Christian, Hindu, Muslim, Orisha, and secular festivity."--BOOK JACKET.

*A History of Creole Trinidad, 1956-2010* Sep 03 2020 This book offers a history of post-Independence Trinidad and Tobago. It explores how culture and politics have operated in tandem to shape the society. Drawing on a wide range of sources, including literature, government reports, official statistics, the press and the Carnival, it critically analyses the popular conception of creolization as the driving force in modern Trinidad and Tobago. Ultimately, the book examines the way in which Trinidad and Tobago's unique ethnic and political ecosystems contribute to its national character.

Freedom, Festivals and Caste in Trinidad After Slavery Oct 17 2021 Dr. SookDeos book shows the relevance of the past to the present by using the case study of Trinidad that highlights the crippling disadvantages that accrue to any people experiencing segregation, no matter the era or system of government. The study challenges notions of free labor, caste and free immigration, especially as it applied to the Caribbean region at the end of slavery and Emancipation (1838) in the British Empire. One thread of commonality with more radical studies of the past is that colonialism perpetuated a caste society similar to the one experienced under slavery. In Trinidad, this was true not only in labor but in education and even when the authorities responded to mass festivals and other freedoms. Such a study is prescient and relevant today, where opportunities for healthy race and economic relations within nations such as Trinidad were lost. This has been to the detriment of national growth and

development in all aspects of Trinidad's life. The irony for the East Indians arriving in nineteenth-century Trinidad was that if some of them had left the worst features of casteism behind, they were entering another rigidly caste-structured society in the New World. The ostensibly free British citizens of India, coveted as substitutes for slaves after Emancipation, had the historical destiny to contribute to the free labor system in Trinidad, but they paid a heavy cost. In general studies of the island nation, Indo-Trinidadian indenture is separated from labor history; this author sees a continuum of many labor regimes including slavery, peonage, indenture of many stripes, and free labor. The US has unearthed evidence in the 1990s that new forms of indented immigration continue in our time. When East Indian history is written as part of Caribbean labor history, we see a story of courage, of pre-industrial people learning how to organize and demand human rights, to survive and make progress with the slowly increasing opportunities of capitalism. This work reveals much about transitions in society generally, and about the transition from slavery to free labor more specifically. That transition is, for Trinidad, a summary of the daily struggles of laboring adults and children who succeeded as "immigrants" against unimaginable odds. A largely illiterate, male population - ill-prepared for western, multi-racial societies - anonymous behind studies that focus on numerous regulations, platitudes, gross statistics and averages come to life in this study. This study humanizes "caste" and "outcaste" groups who knew nothing of Trinidad and it shows what indenture contracts meant in the "East Indians" day to day life on Trinidad's plantations. Many Indians who did not succumb during the three-month voyage from British India to British Trinidad, died of poor health and diet on the plantations, or after expulsion from the estates when they could no longer work, some were found dying on the roads. Individual deaths on ships, beatings and whipping of indented workers and leaders, medical and food inadequacies (on Walkinshaws Estate in 1846), abuse of indented laborers, their wives and children are connected with real people and

names. Especially damning of British-sponsored indenture was its relegating of Indians to pass-carrying prisoners of an anachronistic apartheid state; Indians became the largest sub-group of prisoners allegedly for violating rules that were unfair or hard to understand. The untruths told Indians about high wages at nearby "farms" and outright abductions of men and women, and capricious extension of "contracts" are juxtaposed with other contemporaneous labor migrations. In other words, Portuguese, Chinese and free African indented migration to Trinidad occurred at this very moment in time, yet Indians were probably the most abused single group. SookDeos study connects this to the "spirit of the times" where colonial elites and pla

**The Book of Trinidad** Jun 24 2022 "We must remember... and we must remember everything." - Gerard Besson The Book of Trinidad, a perennial favourite with Trinidadians all over the world, is an eclectic mix of travelogues, recipes, newspaper reports, official records, the seminal work of historians and, perhaps more importantly, the oral traditions of the very old whose memories link back to the turn of the century. Fully illustrated with rare pictures from a wide range of sources, The Book of Trinidad has sold thousands of copies since its first publication in 1986. The history of beautiful Trinidad is a relatively short but multi-faceted one in comparison to its neighbouring islands in the Caribbean. The Book of Trinidad travels through centuries of Trinidad's life, exposing an experience in which the changing of seasons was the only constant in an otherwise timeless world. The remarkable thing in the development of Trinidad has been the make-up of its population. Literally, people from all over the world found a home in the island by virtue of their Catholicism or other considerations. Truly antique strains, such as the Rada from West Africa and Maronite Christians from the Ottoman Empire, Brahmins from India, French aristocrats, Corsican revolutionaries, Portuguese converted to Protestantism from Madeira, Chinese peasants, liberated Africans, and Shiite Muslims who have continued to the present to celebrate Muharrum (Hosay) were all poured into the mould of British

colonialism and stamped by the prejudices of the time. Writers Bridget Brereton and Gerard Besson bring together the people of Trinidad by commemorating the memory of shared experiences among this plethora of cultures in the development of our beloved country. Brereton and Besson's collaboration in *The Book of Trinidad* draws together the collective experience of the nation's people to put together the colourful mosaic that is, in truth, our national patrimony. Bridget Brereton was a Professor of History and the Head of the History department at the University of the West Indies' St. Augustine campus. She has served on several occasions as the Principal of the University of the West Indies, St. Augustine, Trinidad. Gerard A. Besson is a publisher, writer and historian. He is the founder of Paria Publishing, a company that has produced around 100 titles in the field of history and folklore. In 2007, he was the recipient of the Hummingbird Medal (Gold) for Heritage Preservation and Promotion.

*From Indians in Trinidad to Indo-Trinidadians* Dec 19 2021  
This book explores the dynamics of the socio-cultural baggage that Indian indentured migrants took with them to the Caribbean island of Trinidad and how they have since become a vibrant diaspora community, namely the Indo-Trinidadians. It combines social history with first-hand fieldwork data to portray human ingenuity in terms of social reconstitution and community building in a hostile socio-cultural environment. Furthermore, it addresses key social institutions religion, caste, and family and cultural elements language, foodways, and ethnicity. Its analytical framework is guided by the concept of metamorphosis; it steers clear of the persistence versus change hypotheses. Given its focus, it will be of interest to students and scholars of sociology, social anthropology, history, and migration and diaspora studies.

**Governing Sound** Sep 23 2019 Written in two parts, part 1 explores the development of Calypso, from its emergence in the pre-colonial period to the post colonial period. In part 2, the focus is on the new Carnival musical practices of soca, rapso, chutney, soca and ragga soca, and the ways in

which they contributed to the redefinition of Trinidadian cultural politics in the neoliberal era. The new rationalities, contingencies, desires and musical experiments that animated the new musics and enabled them to gradually displace calypso from its centrality as national expression is examined.

Bacchanalian Sentiments Sep 27 2022 An ethnographic exploration of the relationship between music and social and political consciousness on the island of Trinidad.

**Carnival** Nov 29 2022 This beautifully illustrated volume features work by leading writers and experts on carnival from around the world, and includes two stunning photo essays by acclaimed photographers Pablo Delano and Jeffrey Chock. Editor Milla Cozart Riggio presents a body of work that takes the reader on a fascinating journey exploring the various aspects of carnival - its traditions, its history, its music, its politics - and prefaces each section with an illuminating essay. Traditional carnival theory, based mainly on the work of Mikhail Bakhtin and Victor Turner, has long defined carnival as inversive or subversive. The essays in this groundbreaking anthology collectively reverse that trend, offering a re-definition of 'carnival' that focuses not on the hierarchy it temporarily displaces or negates, but a one that is rooted in the actual festival event. Carnival details its new theory in terms of a carnival that is at once representative and distinctive: The Carnival of Trinidad - the most copied yet least studied major carnival in the world.

*Trinidad Yoruba* Apr 10 2021 A deeply informed Afrocentric view of language and cultural retention under slavery. Maureen Warner-Lewis offers a comprehensive description of the West African language of Yoruba as it has been used on the island of Trinidad in the southern Caribbean. The study breaks new ground in addressing the experience of Africans in one locale of the Africa Diaspora and examines the nature of their social and linguistic heritage as it was successively retained, modified, and discarded in a European-dominated island community.

*The Steelband Movement* Jan 08 2021 The Steelband Movement

examines the dramatic transformation of pan from a Carnival street music into a national art and symbol in Trinidad and Tobago. By focusing on pan as a cultural process, Stephen Stuempfle demonstrates how the struggles and achievements of the steelband movement parallel the problems and successes of building a nation. Stuempfle explores the history of the steelband from its emergence around 1940 as an assemblage of diverse metal containers to today's immense orchestra of high-precision instruments with bell-like tones. Drawing on interviews with different generations of pan musicians (including the earliest), a wide array of archival material, and field observations, the author traces the growth of the movement in the context of the grass-roots uprisings of the 1930s and 1940s, the American presence in Trinidad in World War II, the nationalist movement of the postwar period, the aftermath of independence from Britain in 1962, the Black Power protests and the oil boom of the 1970s, and the recession of recent years. The Steelband Movement suggests that the history of pan has involved a series of negotiations between different ethnic groups, socioeconomic classes, and social organizations, all of which have attempted to define and use the music according to their own values and interests. This drama provides a window into the ways in which Trinidadians have constructed various visions of a national identity.

Tubal Uriah Butler of Trinidad and Tobago Kwame Nkrumah of Ghana Aug 22 2019 This work explodes myths on the decolonization process in former British colonies of Trinidad and Tobago and Ghana. Myths that masked the fact that the British colonial overlord with the full support of their local lackeys stage managed the process to ensure that compliant regimes were put in place as the inheritors of Independence from the British. Tubal Uriah Butler was systematically destroyed as a political leader to end his threat to the political order as he was not of the required material to be an inheritor of Independence. Kwame Nkrumah was fit to rule Ghana but he was subsequently removed in 1966. The social orders of Trinidad and Tobago and Ghana have been deeply impacted by British machinations on the

road to Independence to this day.

**Pathology and Identity** Nov 25 2019 The first new religion in the Caribbean since Rastafari, the Earth People draw on West African sources, assert a renascent African identity, and celebrate female creativity. They argue that Black people are the guardians of a natural environment, which is constantly under threat from European science. In this 1993 book, Dr Littlewood, who is both a psychiatrist and a social anthropologist, criticizes received ideas about pathology and creativity. The founder's ideas emerged in her experience of cerebral disease, and Dr Littlewood shows how the Earth People reinterpret radical personal experiences to build a community. While naturalistic and personalistic interpretations of human life are both valid and necessary, neither can be reduced to the other.

Trinidad Feb 18 2022 Trinidad Carnival is arguably the BEST carnival celebration of the Caribbean Islands. Beautiful people dancing in the streets in glorious hand-crafted costumes, delicious food, and non-stop revelry is only a partial definition of the beauty of Trinidad Carnival. It is truly an experience that can not be duplicated. But... there is more to Trinidad than Carnival. Trinidad is a melting pot of culture and history. There is so much to see, do, and experience! This guide will offer you a glimpse into the true Trinbagonian culture beyond Carnival!

**Trinidad and Tobago and Guyana** Jan 20 2022 In this book an attempt is made to probe more carefully the processes by which social and ethnic problems, as these pertain to Caribbean countries, Trinidad and Tobago and Guyana, are conveyed to the political arena and the mechanisms by which they determine critical outcomes. The authors of this book have accordingly distinguished between predisposing factors and what are described as triggering mechanisms. The factors that trigger dramatic changes will differ between Guyana and Trinidad and Tobago. In short, while in some respects these

societies are similar, in others, there are dramatic differences in their respective histories and political developments. This study begins with a survey of the literature on race relations and their connections with politics; it then proceeds to examine the context for the insertion of the two major groups into these societies, the emergence of ethnic groups, and their relationships with political organizations. The nature and politics of the leaders are then analyzed along with the political structures with a view to identifying what factors were responsible for the differing political experiences of both countries.

**Jihad in Trinidad and Tobago, July 27, 1990** Mar 10 2021 On July 27, 1990 a militant Islamic organization launched an attempted coup d' etat premised upon a hostage situation to remove a democratically elected government from power in Trinidad and Tobago West Indies. This work focuses on the central issue of a Muslim minority in the West and its varied attempts to interact with a non-Muslim society on a daily basis. The work would present the ravages of black on black racism upon the Muslim communities of Trinidad and Tobago resulting in a divided community on the basis of race. Secondly, the work examines the influence of various discourses on the Muslim community of Trinidad and Tobago, especially the return to Islam by the Afro-Trinidadians and the development of a militant Islamic discourse which insisted that liberation for especially Afro-Trinidadians and Tobagonians was only found within the ambit of Islam. Finally, the work examines the impact of the illicit drug trade upon the relations between the then government and the Jamaat al Muslimmeen given the Muslimeen's assault upon the illicit drug trade in Trinidad immediately preceding July 27, 1990.

**Carnival** Dec 31 2022 "Milla Cozart Riggio has compiled a body of work that takes the reader on a journey exploring the various aspects of carnival - its traditions, its history, its music, its politics - and prefaces each section with an introductory essay. Carnival represents the first theoretical redefinition of its subject and will be essential reading for the study of Trinidad Carnival in particular and for the general study of the carnivalesque in performance."--BOOK JACKET.

Social Media in Trinidad Jul 26 2022 Drawing on 15 months of ethnographic research in one of the most under-developed regions in the Caribbean island of Trinidad, this book describes the uses and consequences of social media for its residents. Jolynna Sinanan argues that this semi-urban town is a place in-between: somewhere city dwellers look down on and villagers look up to. The complex identity of the town is expressed through uses of social media, with significant results for understanding social media more generally. Not elevating oneself above others is one of the core values of the town, and social media becomes a tool for social visibility; that is, the process of how social norms come to be and how they are negotiated. Carnival logic and high-impact visuality is pervasive in uses of social media, even if Carnival is not embraced by all Trinidadians in the town and results in presenting oneself and association with different groups in varying ways. The study also has surprising results in how residents are explicitly non-activist and align themselves with everyday values of maintaining good relationships in a small town, rather than espousing more worldly or cosmopolitan values.

**Environmental Planning in the Caribbean** Mar 29 2020 Illustrated by case studies from both smaller nations, such as Carriacou, Barbados and St Lucia and larger countries, including Cuba, Mexico and Jamaica, this volume brings together leading writers concerned with environmental planning in the Caribbean to provide an interdisciplinary contemporary critical overview. They argue that context is central to the practice of environmental planning in this region. Rather than focusing on a deterministic colonial

geography and history, this volume proposes that, whilst a wide range of foreign planning influences can be felt in different contexts, environmental planning emerges in specific settings, through the fluid interaction between local and global relations of power. Thus, a number of chapters explore the effects of external discourses upon the region, while others examine discourses on the US-style democracy and on tourism.

*National Women's Health Survey for Trinidad and Tobago* Aug 15 2021 This report presents the first nationally representative estimates of the prevalence of intimate partner violence (IPV) and non-partner sexual violence (NPSV) against women in Trinidad and Tobago. The data come from the 2017 Trinidad and Tobago Women's Health Survey (WHS)—a national, quantitative, cross-sectional survey of 1,079 women ages 15-64. The report finds that 30 percent of ever-partnered women experienced physical and/or sexual violence by an intimate partner in their lifetime; and 6 percent in the 12 months prior to data collection. Seven percent of all respondents reported having been forced into sexual intercourse by a non-partner in their lifetime (1 percent in the last 12 months). Significant risk factors associated with IPV identified using Chi-square tests included: lower education (female and partner), cohabitation without marriage, rural residency, younger age, non-consensual marriage, having been pregnant, having experienced or witnessed violence in childhood, substance abuse by the partner and the partner being unemployed and

having been in prior relationships. The report documents the negative consequences of IPV for women and their children, as well as the most common responses and coping mechanisms. One in three women who experienced IPV remained quiet about their experience and most survivors did not seek or receive assistance for their situation. Women most often sought help from their personal contacts (mostly their mothers) rather than police, social services or other entities adequately resourced to address IPV. Several factors precluded women from accessing help; these included fear, shame, and the normalcy associated with violence. Based on these findings, recommendations for policy and further research are presented.
