The First Formic War Nov 29 2022 This discounted ebundle includes The First Formic War Trilogy by bestselling authors Orson Scott Card and Aaron Johnston: Earth Unaware, Earth Afire, Earth Awakens One hundred years before Ender Wiggin decisively defeated the alien formics in Ender's Game. A pulse-pounding tale of first contact gone horribly wrong. Ender's Game opens in the last desperate days of Earth's war against the implacable insectoid aliens. We are told early on that the Battle School is training generals for the Third Formic War — the war that will end the war; will save the Earth; will finally defeat the Buggers. This is the story of the First Formic Wars, back when humans thought they were alone in the galaxy. Humanity was slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. Then a ship's telescopes pick up a fast-moving object coming in-system... Earth Unaware — When mining ship El Cavadador's telescopes pick up a fast-moving object coming in-system, it's hard to know what to make of it. It's massive and moving at a significant fraction of the speed of light. But the ship has other problems. Their systems are old and failing. Worrying about a distant object that might or might not be an alien ship seems...not important. Earth Afire — Victor Delgado beat the alien ship to Earth, but not soon enough to convince skeptical governments that there was a threat. That is, until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could organize in time to meet the threat. Earth Awakens — Politics slowed the response on Earth, and on Luna, corporate power struggles seemed more urgent than distant deaths. It's up to Mazer Rackham's squad in China, who have developed a method to destroy the alien landers one by one; and Lem Jukes and his crew on the Moon, who may have the key to destroying the Formic mother ship in orbit. First Meetings Jun 12 2021 Welcome to the Enderverse. When "Ender's Game" was first published as a novella twenty-five years ago few would have predicted that it would become one of the most successful ventures in publishing history. Expanded into a novel in 1985, Ender's Game won both the Hugo Award and the Nebula Award for Best Novel. Never out of print and translated into dozens of languages, it is the rare work of fiction that can truly be said to have transcended a genre. Ender's Game and its sequels have won dozens of prestigious awards and are as popular today among teens and young readers as adults. First Meetings is a collection of three novellas-plus the original "Ender's Game"-that journey into the origins and the destiny of one Ender Wiggin. "The Polish Boy" begins in the wake between the first two Bugger Wars when the Hegemony is desperate to recruit brilliant military commanders to repel the alien invasion. In John Paul Wiggin-the future father of Ender -they believe they may have found their man. Or boy. In "Teacher's Pest"-a novella written especially for this collection-a brilliant but insufferably arrogant John Paul Wiggin, now an American university student, matches wits with an equally brilliant graduate student named Theresa Brown. It is many years since the end of the Bugger Wars in "The Investment Counselor." Ender's reputation as a hero and savior has suffered a horrible reversal. Banished from Earth and slandered as a mass murderer, twenty-year-old Andrew Wiggin wanders incognito from planet to planet as a fugitive. Until a blackmailing tax inspector compromises his identity and threatens to expose Ender the Xenocide. Also reprinted here is the original landmark novella, "Ender's Game," which first appeared in 1977. Fully illustrated, First Meetings is Orson Scott Card writing at the height of his considerable power about his most compelling character. Stonefather Nov 24 2019 Runnel, a friendless peasant from a village so humble that money is a new concept, stumbles into a centuries-old feud when he travels to Mitherhome, the city of the wetwizards, seeking his fortune. He accepts a servant's position in the household of the sole stonemage permitted within the city walls, where his untapped magical talents and his fascination with his master's abilities are a predictably dangerous combination.

Shadows in Flight May 31 2020 Ender's Shadow explores the stars in this all-new novel... At the end of Shadow of the Giant, Bean flees to the stars with three of his children--the three who share the engineered genes that gave him both hyper-intelligence and a short, cruel physical life. The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading ansible signal speaking of events lost to Earth's history. But the Delphikis are about to make a discovery that will let them save themselves, and perhaps all of humanity in days to come. For there in space before them lies a derelict Formic colony ship. Aboard it, they will find both death and wonders--the life support that is failing on their own ship, room to grow, and labs in which to explore their own genetic anomaly and the mysterious disease that killed the ship's colony. Ender's Game Gift Edition Jul 01 2020 Winner of the Hugo and Nebula Awards For the perfect holiday gift for the reader on your list, pick up Orson Scott Card's Ender's Game in this specially bound edition of the author's preferred text. Andrew "Ender" Wiggin thinks he is playing computer simulated war games at the Battle School; he is, in fact, engaged in something far more desperate. Ender is the most talented result of Earth's desperate quest to create the military genius that the planet needs in its all-out war with an alien enemy. Is Ender the general Earth needs? The only way to find out is to throw the child into ever harsher training, to chip away and find the diamond inside, or destroy him utterly. Ender Wiggin is six years old when it begins. He will grow up fast. But Ender is not the only result of the experiment. The war with the Formics has been raging for a hundred years, and the quest for the perfect general has been underway for almost as long. Ender's two older siblings, Peter and Valentine, are every bit as unusual as he is, but in very different ways. Between the three of them lie the abilities to remake a world. If, that is, the world survives. Ender's Game is the winner of the 1985 Nebula Award for Best Novel and the 1986 Hugo Award for Best Novel.

Their search for brilliant military talent reveals a potential genius in the form of young John Paul Wiggin - Ender Wiggin's father to be. The Swarm Jan 19 2022 Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this first volume of an all-new trilogy about the Second Formic War in The Swarm. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the ground for their own settlement. The Scouring of China struck fear into the other nations of the planet; that fear blossomed into drastic action when scientists determined that the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. There is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. There's a Polemarch, responsible for organizing all the military forces of the planet into the new International Fleet. But there is an enemy within, an enemy as old as human warfare: ambition and politics. Greed and self-interest. Will Bingwen, Mazer Rackam, Victor Delgado and Lem Juke be able to divert those very human enemies in time to create a weapon that can effectively defend humanity in the inexorable Second Formic War? Xenocide Dec 26 2019 From the Ender Universe, Orson Scott Card's Xenocide is now repackaged for a new generation of readers...

Ender's Game Aug 02 2020 Orson Scott Card's science fiction classic Ender's Game is the winner of the 1985 Nebula Award for Best Novel and the 1986 Hugo Award for Best Novel. In order to develop a secure defense against a hostile alien race's next attack, government agencies breed child geniuses and train them as soldiers. A brilliant young boy, Andrew "Ender" Wiggin lives with his kind but distant parents, his sadistic brother Peter, and the person he loves more than anyone else, his sister Valentine. Peter and Valentine were candidates for the soldier-training program but didn't make the cut—young Ender is the Wiggin drafted to the orbiting Battle School for rigorous military training. Ender's skills make him a leader in school and respected in the Battle Room, where children play at mock battles in zero gravity. Yet growing up in an artificial community of young soldiers Ender suffers greatly from isolation, rivalry from his peers, pressure from the adult teachers, and an unsettling fear of the alien invaders. His psychological battles include loneliness, fear that he is becoming like the cruel brother he remembers, and fanning the flames of devotion to his beloved sister. Is Ender the general Earth needs? But Ender is not the only result of the genetic experiments. The war with the Buggers has been raging for a hundred years, and the quest for the perfect general has been underway for almost as long. Earth Awakens Sep 15 2021 The story of The First Formic War continues in Earth Awakens. Nearly 100 years before the events of Orson Scott Card's bestselling novel Ender's Game, humans were just beginning to step off Earth and out into the Solar System. A thin web of ships in both asteroid belts; a few stations; a corporate settlement on Luna. No one had seen any sign of other space-faring races; everyone expected that First Contact, if it came, would happen in the future, in the empty reaches between the stars. Then a young navigator on a distant mining ship saw something moving too fast, heading directly for our sun. When the alien ship screamed through the solar system, it disrupted communications between the far-flung human mining ships and supply stations, and between them and Earth. So Earth and Luna were unaware that they had been invaded until the ship pulled into Earth orbit, and began landing terra-forming crews in China. Politics and pride slowed the response on Earth, and on Luna, corporate power struggles seemed more urgent than distant deaths. But there are a few men and women who see that if Earth doesn't wake up and pull together, the planet could be lost. The Last Shadow Jul 13 2021 "At the close of Ender's Game, Andrew Wiggin - called Ender by everyone - knows that he cannot live on Earth. He has become far more than just a boy who won a game: He is the Savior of Earth, a hero, a military genius whose allegiance is sought by every nation of the newly shattered Earth Hegemony." "He is offered the choice of living under the Hegemon's control, a pawn in his brother Peter's political games. Or he can join the colony ships and go out to settle one of the new worlds won in the war." "The story of those years on the colony worlds has never been told ... until now." "Ender was twelve when he chose to leave his home world and begin the long relativistic journey out to the colonies. With him went his sister, Valentine, and the core of the artificial intelligence that would become Jane. He wrote The Hive Queen and The Hegemon, and his sister wrote The Speaker for the Dead." "He served as governor of his first colony world, but now Ender is on the move, looking for a planet where the hive queens might be reestablished. What he finds in the Ganges colony is more than he bargained for - a resentful governor who caused a devastating war on Earth and a brilliant young colonist who is out to destroy him, starting with his reputation and ending, perhaps, with his life."--BOOK JACKET.

With all the power of his original creation, Ender's Shadow is Card's parallel volume to Ender's Game, a book that expands and complements the first, enhancing its power, illuminating its events and its powerful conclusion. The human race is at War with the "Buggers", an insect-like alien race. The first battles went badly, and now as Earth prepares to defend itself against the imminent threat of total destruction at the hands of an inscrutable alien enemy, all focus is on the development and training of military geniuses who can fight such a war, and win. The long distances of interstellar space have given hope to the defenders of Earth--they have time to train these future commanders up from childhood, forging them into an irresistible force in the high orbital facility called the Battle School. Andrew "Ender" Wiggin was not the only child in the Battle School; he was just the best of the best. In this new book, card tells the story of another of those precocious generals, the one they called Bean--the one who became Ender's right hand, part of his team, in the final battle against the Buggers. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, a tiny child with a mind leagues beyond anyone else's. He knew he could not survive through strength; he used his tactical genius to gain acceptance into a children's gang, and then to help make that gang a template for success for all the others. He civilized them, and lived to grow older. Bean's desperate struggle to live, and his success, brought him to the attention of the Battle School's recruiters, those people scouring the planet for leaders, tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit, to the Battle School. And there he met Ender.... He is offered the choice of living as a pawn—or he can join the colony ships and go out to settle one of the new worlds won in the war. Ender chooses the stars. With his sister, Valentine, he takes passage aboard a fast ship

to Colony One. The voyage will take two subjective years...and when Ender arrives, he will become governor of the new world. Meanwhile, he is under the command of the ship's captain: a man with ambitions, a man who finds it unthinkable that he would be ruled by a twelve-year-old boy. Admiral Morgan doesn't understand what Ender Wiggin is. But he will.

Children of the Fleet Feb 08 2021 From Orson Scott Card, award-winning and bestselling author of Ender's Game, his first solo Enderverse novel in years. Children of the Fleet is a new angle on Card's bestselling series, telling the story of the Fleet in space, parallel to the story on Earth told in the Ender's Shadow series. Ender Wiggin won the Third Formic war, ending the alien threat to Earth. Afterwards, all the terraformed Formic worlds were open to settlement by humans, and the International Fleet became the arm of the Ministry of Colonization, run by Hiram Graff. MinCol now runs Fleet School on the old Battle School station, and still recruits very smart kids to train as leaders of colony ships, and colonies. Dabeet Ochoa is a very smart kid. Top of his class in every school. But he doesn't think he has a chance at Fleet School, because he has no connections to the Fleet. That he knows of. At least until the day that Colonel Graff arrives at his school for an interview. A War of Gifts Jan 07 2021 A standalone holiday story set during Ender's time at Battle School from the #1 New York Times bestselling author, Orson Scott Card. At the Battle School, there is only one course of study: the strategy and tactics of war. Humanity is fighting an alien race, and we fight as one. Students are drawn from all nations, all races, all religions, taken from their families as children. There is no room for cultural differences, no room for religious observances, and there is certainly no room for Santa Claus. But the young warriors disagree. When Dink Meeker leaves a Sinterklaas Day gift in another Dutch student's shoe, that quiet act of rebellion becomes the first shot in a war of wills that the staff of the Battle School never bargained for. Orson Scott Card's novel Ender's Game is the basis of the hit movie of the same name.

The Swarm Jun 24 2022 Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this first volume of an all-new trilogy about the Second Formic War in The Swarm. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the ground for their own settlement. The Scouring of China struck fear into the other nations of the planet; that fear blossomed into drastic action when scientists determined that the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. There is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. There's a Polemarch, responsible for organizing all the military forces of the planet into the new International Fleet. But there is an enemy within, an enemy as old as human warfare: ambition and politics. Greed and self-interest. Will Bingwen, Mazer Rackam, Victor Delgado and Lem Juke be able to divert those very human enemies in time to create a weapon that can effectively defend humanity in the inexorable Second Formic War?
