**Vintage Camper Trailers** Jan 08 2021 Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

Slab City Oct 17 2021 An architect and a photographer explore a community of squatters, artists, snowbirds, migrants, and survivalists inhabiting a former military base in the California desert. Under the unforgiving sun of southern California's Colorado Desert lies Slab City, a community of squatters, artists, snowbirds, migrants, survivalists, and homeless people. Called by some "the last free place" and by others "an enclave of anarchy," Slab City is also the end of the road for many. Without official electricity, running water, sewers, or trash pickup, Slab City dwellers also live without law enforcement, taxation, or administration. Built on the concrete slabs of Camp Dunlap, an abandoned Marine training base, the settlement maintains its off-grid aspirations within the site's residual military perimeters and gridded street layout; off-grid is really in-grid. In this book, architect Charlie Hailey and photographer Donovan Wylie explore the contradictions of Slab City. In a series of insightful texts and striking color photographs, Hailey and Wylie capture the texture of life in Slab City. They show us Slab Mart, a conflation of rubbish heap and recycling center; signs that declare Welcome to Slab City, T'ai Chi on the Slabs Every morning, and Don't fuck around; RVs in conditions ranging from luxuriously roadworthy to immobile; shelters cloaked in pallets and palm fronds; and the alarmingly opaque water of the hot springs. At Camp Dunlap in the 1940s, Marines learned how to fight a war. In Slab City, civilians resort to their own wartime survival tactics. Is the current encampment an outpost of freedom, a new "city on a hill" built by the self-chosen, an inversion of Manifest Destiny, or is it a last vestige of freedom, tended by society's dispossessed? Officially, it is a town that doesn't exist. Research for this project was supported by the Graham Foundation for Advanced Studies in the Fine Arts.

*The Motor Camping Book (Legacy Edition)* Aug 15 2021 One of the First Manuals on Car Camping and Recreational Vehicles This deluxe unabridged reprint Legacy Edition of Elon Jessup's historic *The Motor Camping Book* is full of classic tips and methods for making the most out of your car camping and recreational vehicle trips. As one of the first books on RVs and car camping published originally in 1921, this vintage book is an essential text for seeing how car camping, trailer life, and campers enjoyed themselves when cars were few and outdoors touring roads were all still covered in dirt! Jessup's analysis and discussion of car camping was ahead of its time. Jessup describes in detail some of the finer points of motor vehicle camping in its earliest days, including chapters on why we camp in our vehicles in the first place, what to pack in your car, water considerations, cooking kits and utensils, cooking fires, food boxes, sleeping arrangements and how to set up tents, car-based shelters in original motor cars, furnishing your campsite, staying out of trouble with common car-based challenges, where to camp with your car in 1921, and laws for motorists of the day. This vintage book includes timeless RV and motor vehicle camping topics. It makes a perfect gift for car campers, van life enthusiasts, trailer and camper RV die-hards, and anyone who longs to spend a weekend or longer in their RV, young and old! This is the classic manual of RVs, preserved for over a century! It also makes a great gift for outdoorspeople, bushcrafters, survivalists, campers, and scouts. Although this book represents thought from a former time, it also reveals much about the rich history of recreational vehicles, and many of the tips, tricks, and discussions are still relevant for study today! A part of the Library of American Outdoors Classics. This Doublebit Legacy Edition facsimile reprint of *The Motor Camping Book* is professionally restored and presented from the original source, including inspiration from the book's original cover, with the highest degree of fidelity possible.
