Music and the Broadcast Experience Jun 12 2021 How can broadcasting help us understanding music and its cultural role, both historically and today? To answer this question, 'Music and the Broadcast Experience' brings together fourteen leading music and media scholars, who explore how music and broadcasting have developed together throughout the twentieth and into the twenty-first centuries.

FERTILIZER HAPPENS Sep 27 2022 The week before Easter 2013. Rev. Jean Niven Lenk was busy preparing Holy Week observances at the church she served. But she could not ignore the nagging backache that had dogged her for months. In between her pastoral duties that week, she underwent a variety of tests. And then, on Good Friday - the most somber day on the Christian calendar - she received the devastating diagnosis that changed everything: Stage IV cancer. Overwhelmed by the sudden change in her life from pastor to patient, she found an outlet for her raw and often conflicting emotions by writing a blog about her daily experience of fighting cancer. The result is a sometimes irreverent but always authentic account of her struggle which reveals how the "stuff" she has experienced has become fertilizer for a life brimming with meaning, purpose, hope, and love.

Living with the Ribbon Dec 19 2021 MacKenzie's life would be classified as ideal by most teenage standards. A set of supportive parents who were still lovingly married, a best friend who was also her identical twin, a mentally tough athlete (who had more muscles than most of her guy friends), and a competitive GPA that was sure to get her into a great college. Everything was right on track for a perfect life, until the age of sixteen, when she was shockingly diagnosed with cancer during a routine physical. Living with the Ribbon is an authentic recount of how MacKenzie Greenberg dealt with the diagnosis (what denial?), suffered through anxiety at each medical appointment (all one hundred-plus of them), responded with "Fine" when asked that annoying "How are you doing/feeling?" question, stubbornly refused to listen to the advice of her support system to "take it easy," and ultimately, how she continues to battle daily with a disease that will not play by the rules.

How to Live Forever Dec 07 2020 Using this helpful book, learn how the secret to happiness and longevity can be found through mentoring the next generation. In How to Live Forever, Encore.org founder and CEO Marc Freedman tells the story of his thirty-year quest to answer some of contemporary life's most urgent questions: With so many living so much longer, what is the meaning of the increasing years beyond 50? How can a society with more older people than younger ones thrive? How do we find happiness when we know life is long and time is short? In a poignant book that defies categorization, Freedman finds insights by exploring purpose and generativity, digging into the drive for longevity and the perils of age segregation, and talking to social innovators across the globe bringing the generations together for mutual benefit. He finds wisdom in stories from young and old, featuring ordinary people and icons like jazz great Clark Terry and basketball legend Kareem Abdul-Jabbar. But the answers also come from stories of Freedman's own mentors—a sawmill worker turned surrogate grandparent, a university administrator who served as Einstein's driver, a cabinet secretary who won the Presidential Medal of Freedom, and the gym teacher who was Freedman's father. How to Live Forever is a deeply personal call to find fulfillment and happiness in our longer lives by connecting with the next generation and forging a legacy of love that lives beyond us.

Ambient Assisted Living Sep 15 2021 In this book, leading authors in the field discuss development of Ambient Assisted Living. The contributions have been chosen and invited at the 6th AAL congress, Berlin. It presents new technological developments which support the autonomy and independence of individuals with special needs. As the technological innovation raises also social issues, the book addresses micro and macro economical aspects of assistive systems and puts an additional emphasis on the ethical and legal discussion. The presentation is supported by real world examples and applications.

The Year of the Queer Apr 10 2021 A theologian, historian and bioethicist by academic training, Rev. Jeff Hood is a graduate of Auburn University, the Southern Baptist Theological Seminary, Emory University's Candler School of Theology, the University of Alabama, Creighton University, and is currently pursuing a Doctorate of Ministry in Practical Theology at Brite Divinity School at Texas Christian University. His ordination rests within the Southern Baptist Convention. A native of Atlanta, Georgia, Jeff currently lives in Denton, Texas, where he serves as a pastor to persons in communities throughout the region. As a theological activist and organizer, Jeff serves as a member of the Board of Directors of the Texas Coalition to Abolish the Death Penalty, on the Statewide Steering Committee and as North Texas area director of Pastors for Texas Children and on the National Council of the Fellowship of Reconciliation USA. In 2013, Jeff's work as a spiritual organizer and activist was recognized by PFLAG Fort Worth's Equality Award. Jeff is married to Emily and together they have three young sons, twin toddlers, Jeff III and Phillip, and newborn, Quinley. Jeff also maintains a closer friendship to Texas Death Row prisoner Will Speer. Jeff is the author of two other books, The Queer: An interaction with The Gospel of John and The Queering of an American Evangelical. A Southern, Queer, and Christian, Jeff is a committed activist, visionary writer and radical prophetic voice to a closed society.

The Awakening of Muslim Democracy Jul 14 2021 Why and how did Islam become such a political force in so many Muslim-majority countries? In this book, Jocelyne Cesari investigates the relationship between modernization, politics, and Islam in Muslim-majority countries such as Egypt, Iraq, Pakistan, Tunisia, and Turkey - countries that were founded by secular rulers and have since undergone secularized politics. Cesari argues that nation-building processes in these states have not created liberal democracies in the Western mold, but have instead spurred the politicization of Islam by turning it into a modern national ideology. Looking closely at examples of Islamic dominance in political modernization, this study provides a unique overview of the historical and political developments from the end of World War II to the Arab Spring that have made Islam the dominant force in the construction of the modern states, and discusses Islam's impact on emerging democracies in the contemporary Middle East.

To Live and Defy in LA Nov 17 2021 How gangsta rap shocked America, made millions, and pulled back the curtain on an urban crisis. How is it that gangsta rap—so dystopian that it struck aspiring Brooklyn rapper and future superstar Jay-Z as “over the top”—was born in Los Angeles, the home of Hollywood, surf, and sun? In the Reagan era, hip-hop was understood to be the music of the inner city and, with rare exception, of New York. Rap was considered the poetry of the street, and it was thought to breed in close quarters, the product of dilapidated tenements, crime-infested housing projects, and graffiti-covered subway cars. To many in the industry, LA was certainly not hard-edged and urban enough to generate authentic hip-hop; a new brand of black rebel music could never come from La-La Land. But it did. In *To Live and Defy in LA*, Felicia Viator tells the story of the young black men who built gangsta rap and changed LA and the world. She takes readers into South Central, Compton, Long Beach, and Watts two decades after the long hot summer of 1965. This was the world of crack cocaine, street gangs, and Daryl Gates, and it was the environment in which rappers such as Ice Cube, Dr. Dre, and Eazy-E came of age. By the end of the 1980s, these self-styled “ghetto reporters” had fought their way onto the nation's radio and TV stations and thus into America's consciousness, mocking law-and-order crusaders, exposing police brutality, outraging both feminists and traditionalists with their often retrograde treatment of sex and gender, and demanding that America confront an urban crisis too often ignored.

The Global Water System in the Anthropocene Oct 17 2021 The Global Water System in the Anthropocene provides the platform to present global and regional perspectives of world-wide experiences on the responses of water management to global change in order to address issues such as variability in supply, increasing demands for water, environmental flows and land use change. It helps to build links between science and policy and practice in the area of water resources management and governance, relates institutional and technological innovations and identifies in which ways research can assist policy and practice in the field of sustainable freshwater management. Until the industrial revolution, human beings and their activities played an insignificant role influencing the dynamics of the Earth system, the sum of our planet's interacting physical, chemical, and biological processes. Today, humankind even exceeds nature in terms of changing the biosphere and affecting all other facets of Earth system functioning. A growing number of scientists argue that humanity has entered a new geological epoch that needs a corresponding name: the Anthropocene. Human activities impact the global water system as part of the Earth system and change the way water moves around the globe like never before. Thus, managing freshwater use wisely in the planetary water cycle has become a key challenge to reach global environmental sustainability.

*United Nations Demographic Yearbook 2017 / Nations Unies Annuaire démographique 2017* Apr 30 2020 Demographic Yearbook 2017 is the sixty-eighth edition in a series published since 1948. Through the cooperation with the National Statistical Offices, official demographic statistics are compiled in the Yearbook, as available, for more than 230 countries and areas of the world up to the reference year 2016. This edition of the Yearbook contains chapters on the population size and distribution, the population of capital cities, fertility, foetal mortality, infant and maternal mortality, general mortality, nuptiality and divorce.

*HR in VUCA World* Oct 24 2019 “In skating over thin ice, our safety is in our speed.” – Ralph W. Emerson Michael Phelps, one of the most decorated Olympians of all time (28 gold medals in swimming), has beaten champions from different countries and comenumerouno with his immense talent and swift swimming. Now, imagine Phelps swimming in a sea and confronting a whale on one side, a shark on the other, and a crocodile farther ahead. It is also raining heavily. Phelps has to avoid the whale, shark and crocodile to reach ashore. To escape them, he has to think, act and swim fast. Somehow, he marshals all his energy and makes a great escape! Incredible yet very much plausible. This is what one confronts in the VUCA World. The HR needs to act quickly to stave off disaster and move ahead swiftly and skillfully. For that, it should be able to adapt, maneuver and stay afloat. HR in the VUCA World is a comprehensive guide for HR to succeed in the VUCA World, with strategies and tips from experts in diverse fields. Right from portraying HR in the VUCA World to capturing emerging trends in the VUCA World, this insightful book provides you all that you need to know about Human Resources in the VUCA World and ways to excel in it.

*Rescuing Jesus* Aug 03 2020 An inside look at the young, diverse, and progressive Christians who are transforming the evangelical movement Deborah Jian Lee left the evangelical world because she was frustrated by its conservative politics. But over the years, she noticed how evangelical culture and politics were changing—and moving in a more progressive direction. What Lee came to find is that most of what we think we know about evangelicals is wrong, or is well on its way to becoming dated. In *Rescuing Jesus*, she ventures into the world of progressive evangelicalism, telling the stories of those at the forefront of a movement that could change the face and the substance of religion in the United States. These men and women are a young and diverse array of people—LGBTQ and straight; white, black, Asian, Hispanic, and indigenous—who are working to wrest political power away from conservatives. These young evangelicals are more likely than their elders to accept same-sex marriage, more inclined to think of “pro-life” issues as being about supporting society’s disenfranchised, and more accepting of equality between men and women. With empathy, journalistic rigor, and powerful storytelling, Lee unpacks the diverse and complex strands of this movement—and what it means for the rest of us. Given the clout that evangelicals still hold in national politics, Lee argues, this movement is important not only for the future of evangelicalism but also for the future of our country.

Security, Governance, and State Fragility in South Africa Feb 06 2021 Do existing measures of state fragility measure fragility accurately? Based on commonly used fragility measures, South Africa (SA) is classified as a relatively stable state, yet rising violent crime, high unemployment, endemic poverty, eroding public trust, identity group based preferential treatment policies, and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility. Based on a comprehensive view of security, this study examines the extent to which measures of political legitimacy and good governance, effectiveness in the security system – especially with respect to the police system – and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility. Using a mixed-methods approach based on quantitative secondary data analysis and semi-structured interviews with government officials, security practitioners, and leading experts in the field, this study finds that the combination of colonization, apartheid, liberation struggle, transition from autocracy to democracy, high levels of direct and structural violence, stagnating social, political, and economic developments make South Africa a latently fragile state. Conceptually, the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility. Practically, this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility.

**Women and Elective Office** Sep 23 2019 This edition of *Women and Elective Office* offers the latest research on women as candidates and officeholders. It provides a comprehensive look at at the history and status of women in elective office, their prospects for the future, and why women in elected office matter to American democracy. It features all-new essays and up-to-the-minute research by leading experts in the field, including the latest political trends and events such as Hillary Rodham Clinton's run for the presidency, women's representation on the state and local level, the diversity of women officeholders' experiences and circumstances, and female judges. *Women and Elective Office* is an essential guide to understanding the past, present, and future of women in all echelons of government.

**Scarcity** Jul 02 2020 In this provocative book based on cutting-edge research, Sendhil Mullainathan and Eldar Shafir show that scarcity creates a distinct psychology for everyone struggling to manage with less than they need. Busy people fail to manage their time efficiently for the same reasons the poor and those maxed out on credit cards fail to manage their money. The dynamics of scarcity reveal why dieters find it hard to resist temptation, why students and busy executives mismanage their time, and why the same sugarcane farmers are smarter after harvest than before. Once we start thinking in terms of scarcity, the problems of modern life come into sharper focus, and *Scarcity* reveals not only how it leads us astray but also how individuals and organizations can better manage scarcity for greater satisfaction and success.

*From Me To You: The Beatles Chart Book, 1962-2016* Aug 15 2021 Inspired by the "From You To Us" letters section in the UK's New Music Express publication, The Beatles' 1963 single *From Me To You* topped the Record Retailer chart - which later became the Official UK Singles Chart. It marked the start of The Beatles' chart-topping superstardom. The Beatles scored 56 UK Top 75 hit singles between 1962 and 2010, including 17 number ones, which spent a total of 65 weeks at the top spot. Moreover, the group achieved 55 UK Top 75 albums between 1963 and 2016, including 15 number ones, which spent a whopping total of 174 weeks at the top spot. Over in the States, The Fab Four achieved 19 US#1 albums and sold a reported staggering 1.6-billion singles, including 20 #1's!

Place/No-Place in Urban Asian Religiosity Nov 25 2019 This book discusses Asia’s rapid pace of urbanization, with a particular focus on new spaces created by and for everyday religiosity. The essays in this volume – covering topics from the global metropolises of Singapore, Bangalore, Seoul, Beijing, and Hong Kong to the regional centers of Gwalior, Pune, Jahazpur, and sites like Wudang Mountain – examine in detail the spaces created by new or changing religious organizations that range in scope from neighborhood-based to consciously global. The definition of “spatial aspects” includes direct place-making projects such as the construction of new religious buildings – temples, halls and other meeting sites, as well as less tangible religious endeavors such as the production of new “mental spaces” urged by spiritual leaders, or the shift from terra firma to the strangely concrete effervesce of cyberspace. With this in mind, it explores how distinct and blurred, and open and bounded communities generate and participate in diverse practices as they deliberately engage or disengage with physical landscapes/cityscapes. It highlights how through these religious organizations, changing class and gender configurations, ongoing political and economic transformations, continue as significant factors shaping and affecting Asian urban lives. In addition, the books goes further by exploring new and often bittersweet “improvements” like metro rail lines, new national highways, widespread internet access, that bulldoze – both literally and figuratively – religious places and force relocations and adjustments that are often innovative and unexpected. Furthermore, this volume explores personal experiences within the particularities of selected religious organizations and the ways that subjects interpret or actively construct urban spaces. The essays show, through ethnographically and historically grounded case studies, the variety of ways newly emerging religious communities or religious institutions understand, value, interact with, or strive to ignore extreme urbanization and rapidly changing built environments.

**The Chinese Corporate Ecosystem** May 12 2021 Challenging simplistic claims that Chinese corporations merely serve Communist Party goals, this book argues we cannot understand these corporations without tracing their dynamic evolution within a unique socio-political ecosystem. Vivid case studies illuminate the strange hybrid structures and networks that are essential for corporate success in the Chinese habitat. Tracing the reciprocal impacts between Chinese corporations and their environment, Colin S. C. Hawes reveals how corporations' political adaptations have raised serious obstacles for their international expansion and worsened China's environmental crisis. Adopting an interdisciplinary approach that synthesizes insights from behavioural economics, science and Chinese philosophy, this book proposes innovative solutions to the damaging impacts of Chinese corporations. It makes a compelling case for redirecting the vital energy of corporations and government officials in more productive and sustainable directions.

**Immunisation against infectious diseases** Nov 29 2022 This is the third edition of this publication which contains the latest information on vaccines and vaccination procedures for all the vaccine preventable infectious diseases that may occur in the UK or in travellers going outside of the UK, particularly those immunisations that comprise the routine immunisation programme for all children from birth to adolescence. It is divided into two sections: the first section covers principles, practices and procedures, including issues of consent, contraindications, storage, distribution and disposal of vaccines, surveillance and monitoring, and the Vaccine Damage Payment Scheme; the second section covers the range of different diseases and vaccines.

*Culture's Software* Sep 03 2020 When Geert Hofstede famously defined culture as collective programming of the mind, the definition broadly referred to culture as such, including all the layers in his “onion” model. The title of this volume, *Culture’s Software*, represents a development of this original idea and was inspired by none other than Professor Hofstede himself. He used this phrase over thirty years later when lecturing to an international group of scholars gathered in Poland to debate the idea of cultural communication styles, which has, in recent years, been fruitfully discussed from a fresh perspective by scholars working within cognitive and cultural linguistics. The debate has given rise to this book, which will inspire further research into this fascinating subject.

**Poland in European Union** Jan 26 2020

*Corporate Behavior and Sustainability* Mar 29 2020 Companies can no longer expect to engage in dubious or unethical corporate behaviour without risking their reputation and damaging, perhaps irrevocably, their market position. Irresponsible corporate behavior not only deprives shareholders of long-term returns but also ultimately imposes a cost on society as a whole. Sustainable business is about ensuring that entities contribute toward positive social, environmental, and economic outcomes. Bad business behaviour is

costly for stakeholders, for markets, for society, and the economy alike. To ensure that a company behaves well, the buy-in of the leadership team is crucial. The full commitment of the board of directors, in conjunction with the senior managers of the organization, is required if an organization is to be socially responsible. In this sense, leadership does not reside with an individual (the CEO) within the organization but with all of those at the apex of corporate power and control. Effective change management requires enlightened and capable leadership to instigate and drive the process of embedding a sustainable and socially responsible corporate philosophy and culture that supports good business decision-making. A profound understanding of the requirements of such a leadership process will help corporate managers become highly effective change agents. Governance will be the main driver of this change. For the economy and financial markets to become sustainable and resilient, radical changes in corporate leadership need to take place. Integrated reporting, government regulation, and international standards will all be important factors in bringing about this change. As well as understanding the effects of corporate behavior on financial markets, such an understanding is also now imperative in relation to the social and environmental contexts.

*Sensors for Everyday Life* Oct 05 2020 Sensors were developed to detect and quantify structures and functions of human body as well as to gather information from the environment in order to optimize the efficiency, cost-effectiveness and quality of healthcare services as well as to improve health and quality of life. This book offers an up-to-date overview of the concepts, modeling, technical and technological details and practical applications of different types of sensors. It also discusses the trends for the next generation of sensors and systems for healthcare settings. It is aimed at researchers and graduate students in the field of healthcare technologies, as well as academics and industry professionals involved in developing sensing systems for human body structures and functions, and for monitoring activities and health.

*Guinness World Records 2015* Nov 05 2020 The world's best-selling annual is back, with thousands of amazing new records, cool facts and awesome pictures! Ever wondered how far a dog can ride a scooter or who's swallowed the most swords underwater? Want to know about the latest sporting achievements, extreme bodies and cutting-edge tech? Find the answers to these and many more mind-boggling feats in the all-new Guinness World Records 2015 eBook. What's more, 2015 marks 60 years since the release of the very first GWR annual. To celebrate our diamond anniversary, you'll find milestones of our classic records and how they've changed – or not changed – over time, plus a special feature just on diamond records. And if all that isn't enough, you can download the new "See It 3D" augmented-reality app on another smart device to bring records in your eBook to life – just point it at designated records on screen and watch what happens! Compare yourself to the tallest man ever, squish maggots in our game, take a journey around the Solar System and much more.

**Living Liturgy for Extraordinary Ministers of Holy Communion 2013** Oct 29 2022 Living Liturgy for Extraordinary Ministers of Holy Communion offers encouragement for Communion ministers and includes personal reflections for each Sunday. This little book is an indispensable aid for those who take Holy Communion to the sick and homebound. It begins with the First Sunday of Advent 2012.
