Analyzing A Common Word Between Us Muslims and You Christians Mar 14 2021 In recent peace initiative (a common word) in Muslim-Christian relations, emphasis on the way forward between Islam and Christianity has been a frantic call to "love of God and love of neighbor." This call, argued in this book, provokes rival and parallel logic in the concepts of monotheism between Christian religious leaders and scholars on the one hand and Islamic religious leaders and scholars on the other. Using in places the framework of critical discourse analysis (CDA), the author analyzes some text extracts from a common word in order to expose the underlying problems of ideologies, dichotomies, identity constructions, and orthodoxy claims that are associated with the Islamic Tawhid and Christian Trinity. Drawing from various conferences and workshops convened by both religious communities as well as some social scientist insights, this book finds authentic communication in Muslim-Christian relations grounded in recognition and acceptance of the differences between Islam and Christianity. Recognizing the ideological issues in the usage of the appositional pronouns us Muslims and you Christians as suggesting dichotomy, the author suggests rather the education of both Muslims and Christians, starting from the kindergarten on the religion and beliefs of the other and to re-interpret and revise conflicting Qur'anic and biblical issues pertaining to Muslim-Christian relations.

Muslims in a Post-9/11 America Jul 06 2020 Muslims in a Post-9/11 America examines how public fears about Muslims in the United States compare with the reality of American Muslims' attitudes on a range of relevant issues. While most research on Muslim Americans focuses on Arab Muslims, a quarter of the Muslim American population, Rachel Gillum includes perspectives of Muslims from various ethnic and national communities—from African Americans to those of Pakistani, Iranian, or Eastern European descent. Using interviews and one of the largest nationwide surveys of Muslim Americans to date, Gillum examines more than three generations of Muslim American immigrants to assess how segments of the Muslim American community are integrating into the U.S. social fabric, and how they respond to post-9/11 policy changes. Gillum's findings challenge perceptions of Muslims as a homogeneous, isolated, un-American, and potentially violent segment of the U.S. population. Despite these realities, negative political rhetoric around Muslim Americans persists. The findings suggest that the policies designed to keep America safe from terrorist attacks may have eroded one of law enforcement's greatest assets in the fight against violent extremism—a relationship of trust and goodwill between the

Muslim American community and the U.S. government. Gillum argues for policies and law enforcement tactics that will bring nuanced understandings of this diverse category of Americans and build trust, rather than alienate Muslim communities.

Why Do They Hate Us? May 04 2020 "Effectively countering pernicious, misinformed narratives, this is an essential contribution to interfaith studies." -Publishers Weekly TOP 10 RELIGION AND SPIRITUALITY BOOKS OF 2019 "Well-researched, cogently argued... avoids clichés and deeply examines the complex relationship between Islam and the West." -Booklist, starred review BEST INDIE NON-FICTION BOOKS OF 2019 "A clear, concise, and thoughtful introduction to Islam." -Kirkus, starred review With Americans still in shock after watching packed airliners slam into the twin towers, George W. Bush asked America, "Why do they hate us?" After 9/11, the world became more fearful, and acts of terrorism were prominent in the news cycles. In *Why Do They Hate Us?*, author Steve Slocum takes the spotlight off the extremists and instead exposes the heart of the everyday Muslim through Christian outreach. "In an era of rampant Islamophobia, Slocum's book is essential reading." - Todd H. Green, author of *The Fear of Islam: An Introduction to Islamophobia in the West* *Why Do They Hate Us?* brings the story of Mohammed to life and unveils the storied history of Islam with refreshing detail. Slocum clears up common misconceptions about jihad, Sharia law and the role of women in Islam. He then connects the dots for readers of all faiths between cause and effect for the rise in Islamophobia. Finally, Slocum suggests practical ways to overcome societal fears by face-to-face interaction with our Muslim neighbors. *Why Do They Hate Us?* is sprinkled with stories from the lives of everyday Muslims and anecdotes from Slocum's time in Kazakhstan, allowing the reader to catch a glimpse of a different side of Muslims than portrayed in the media. "Before reading this book I knew very little about Islam despite a pastoral career. I now feel like I know much more. It left me with a hunger to befriend Muslims." - Pastor Martha Freeman, M.Div.

Transnational Muslims in American Society Dec 23 2021 This in-depth yet accessible guide to Islamic immigrants from the Middle East, South Asia, Southeast Asia, and Africa challenges the widely held perception that Islam is monolithic and exclusively Arab in identity and expression. Offering a topical discussion of Islamic issues, the author argues that there is no one immigrant Islam community but a multifaceted and multi-cultural Islamic world. She offers an insider's look at what ideals and practices Muslims bring to this nation, how they see themselves as Americans, and how they get along with each other and with indigenous American Muslims. While much of the author's research and writing precedes 9/11, she interweaves the events of that day and their subsequent impact on the lives and fortunes of immigrant American Muslims. Intimately exploring some of the immigrant communities through their stories and the history of American-Islamic relations, McCloud addresses women's equality, discrimination, rivalries among divisions within the faith, and immigration problems. Her findings are telling regarding a community in transition, chaos, and fear. Each community has a culturally bound understanding and practice of Islam mostly shaped by a particular colonial experience. Muslim world philosophies and traditional authority are under siege, and there is a great deal of tension between communities and with the indigenous community over authority and leadership.

Suppression of the Muslims Apr 02 2020 From a historical viewpoint, this political science study considers the hypocritical US policies toward Muslim countries and the ways in which they affect Muslims perception of the West. Islam is a religion of

peace, but all over the world Muslims are often portrayed as terrorists. In *Suppression of the Muslims*, author Mohammed Ashraf Haque offers a consideration of the tense relationship between the United States and the Muslim world. He discusses, from a historical and political viewpoint, the hypocritical US policies toward Muslim countries, demonstrating the ways in which they affect Muslims perception of the West. Haque argues that the US policy has always been an attempt to weaken the Muslim countries. *Suppression of the Muslims* analyzes his theory against the backdrop of: - The misunderstanding between Islam and the West; - CIA activities in Muslim countries; - The breaking up of Pakistan; - Military dictators in Muslim countries; - Politics in South Asia; - The emergence of Bangladesh; and - The Iraq war. Haque provides an explanation of the background of Islam and Muslims and considers the ways in which they are often misunderstood and unfairly persecuted because of their beliefs, along with how this plays out in the rest of the world, especially the United States.

Black Muslims in the US Dec 11 2020 From the labeling of jihad as a 'holy war' to the generalization of all black Muslims as 'converts' to the religion of Islam, myths and deficiencies in today's rhetoric and scholarship foster stereotyped images of black Muslims. *Black Muslims in the US* provides historical and contemporary analyses of political Islam among mainstream black Sunni Muslims in the US who—despite being the least-examined group by scholars— represent the largest, oldest, and fastest growing Muslim group in the US. Rashid seeks to correct deficiencies in scholarship by identifying alternative ways to recognize black and other indigenous Muslims in early America, offering more authoritative descriptions of the black American Muslim experience, and citing new evidence of a strong black Islamic presence in contemporary American society. Using both new and re-examined research from historical records, field study data, ethnographic reports, and oral accounts, Rashid examines the status of black Muslims in the US from their arrival to the influential role that they continue to play in contemporary US society.

The Grand Jihad Aug 19 2021 The real threat to the United States is not terrorism. The real threat is the sophisticated forces of Islamism, which have collaborated with the American Left not only to undermine U.S. national security, but to shred the fabric of American constitutional democracy—freedom and individual liberty. In *The Grand Jihad: How Islam and the Left Sabotage America*, bestselling author Andrew C. McCarthy provides a harrowing account of how the global Islamist movement's jihad involves far more than terrorist attacks, and how it has found the ideal partner in President Barack Obama, whose Islamist sympathies run deep. McCarthy is the former federal prosecutor who convicted the notorious "Blind Sheikh" and other jihadists for waging a terrorist war that included the 1993 World Trade Center bombing. In his national bestseller, *Willful Blindness: A Memoir of the Jihad* (Encounter 2008), he explored government's conscious avoidance of the terrorist threat, which made the nation vulnerable to mass-murder attacks. In *The Grand Jihad*, he exposes a more insidious peril: government's active concealment of the Islamist ideology that unabashedly vows to "conquer America." With the help of witting and unwitting accomplices in and out of government, Islamism doesn't merely fuel terrorism but spawns America-hating Islamic enclaves in our midst and gradually foists Islam's repressive law, sharia, on American life. The revolutionary doctrine has made common cause with an ascendant Left that also seeks radical transformation of our constitutional order. The prognosis for liberty could not be more dire.

Finding Mecca in America Oct 01 2022 The events of 9/11 had a profound impact on American society, but they had an even more lasting effect on Muslims living in the United States. Once practically invisible, they suddenly found themselves overexposed. By describing how Islam in America began as a strange cultural object and is gradually sinking into familiarity, *Finding Mecca in America* illuminates the growing relationship between Islam and American culture as Muslims find a homeland in America. Rich in ethnographic detail, the book is an up-close account of how

Islam takes its American shape. In this book, Mucahit Bilici traces American Muslims' progress from outsiders to natives and from immigrants to citizens. Drawing on the philosophies of Simmel and Heidegger, Bilici develops a novel sociological approach and offers insights into the civil rights activities of Muslim Americans, their increasing efforts at interfaith dialogue, and the recent phenomenon of Muslim ethnic comedy. Theoretically sophisticated, *Finding Mecca in America* is both a portrait of American Islam and a groundbreaking study of what it means to feel at home.

Jihad Incorporated Apr 14 2021 Presents an overview of the activities, funding, and operations of radical Islamic terrorist groups within the United States and abroad.

Advertising's War on Terrorism Sep 07 2020 "Every once in a while a book comes along that provides an 'ah ha, so that's what happened!' Advertising's War on Terrorism does that for the question of why ... the United States ... is having trouble winning hearts and minds overseas. ... [This] book should be read by every member of Congress and every State Department employee."--Dr. Richard Nelson, professor of mass communication at Louisiana State University and author of *A Chronology and Glossary of Propaganda in the United States* "[H]ere ... is a competent and detailed counter-argument in support of the mature, intelligent and relevant use of marketing communications in foreign policy. Few are better qualified than professors Fullerton and Kendrick..."--Simon Anholt, public diplomacy advisor to the U.K. and author of *Brand America*. "Professors Fullerton and Kendrick are to be saluted for their efforts to deconstruct advertising's potential-and limitation-in political communication. Excellent case study for students interested in the post-9/11 environment, where marketing, national image, and winning hearts and minds come together."--Dr. Nancy Snow, Senior Fellow at the University of Southern California Center on Public Diplomacy

Service in a Time of Suspicion Aug 07 2020 On September 11, 2001, nineteen members of the Islamist extremist organization al-Qaeda launched four coordinated attacks on the United States, killing 2,977 people. These events and the government's subsequent "War on Terror" refueled long-standing negative stereotypes about Muslims and Islam among many Americans. And yet thousands of practicing Muslims continued to serve or chose to enlist in the U.S. military during these years. In *Service in a Time of Suspicion*, fifteen such service members talk about what it means to be Muslim, American, and a uniformed member of the armed services in the twenty-first century. These honest accounts remind us of our shared humanity.

The Practice of Islam in America May 28 2022 "Muslims have always been part of the United States, but very little is known about how Muslim Americans practice their religion. How do they pray? What's it like to go on pilgrimage to Mecca? What rituals accompany the birth of a child, a wedding, or the death of a loved one? What holidays do Muslims celebrate and what charities do they support? How do they learn about the Qur'an? [This book] introduces readers to the way Islam is lived in the United States, offering ... portraits of Muslim American life passages, ethical actions, religious holidays, prayer, pilgrimage, and other religious activities"--Back cover.

A History of Islam in America Jul 30 2022 Traces the history of Muslims in the US and their waves of immigration and conversion across five centuries.

Muslims in the United States Jul 18 2021 As the United States wages war on terrorism, the country's attention is riveted on the Muslim world as never before. While many cursory press accounts dealing with Muslims in the United States have been published since 9/11, few people are aware of the wealth of scholarly research already available on the American Islamic population. In *Muslims in the United States: The State of Research*, Karen Isaksen Leonard mines this rich vein of research to provide a fascinating overview of the history and contemporary situation of American Muslim communities. Leonard describes how Islam, never a monolithic religion, has inevitably been shaped by its experience on American soil. American Muslims are a religious minority, and arbiters of Islamic cultural values and jurisprudence must operate within the framework of America's secular social and legal codes, while coping with the ethnic differences among Muslim groups that have long divided their communities. Arab Muslims tend to dominate mosque functions and teaching Arabic and the Qur'an, whereas South Asian Muslims have often focused on the regional and national mobilization of Muslims around religious and political issues. By the end of the 20th century, however, many Muslim immigrants had become American citizens, prompting greater interchange among these groups and bridging some cultural differences. African American Muslims remain the most isolated group—a minority within a minority. Many African American men have converted to Islam while in prison, leading to a special concern among African American Muslims for civil and religious rights within the prison system. Leonard highlights the need to expand our knowledge of African American Muslim movements, which are often not regarded as legitimate by immigrant Muslims. Leonard explores the construction of contemporary American Muslim identities, examining such factors as gender, sexuality, race, class, and generational differences within the many smaller national origin and sectarian Muslim communities, including secular Muslims, Sufis, and fundamentalists. *Muslims in the United States* provides a thorough account of the impact of September 11th on the Muslim community. Before the terrorist attacks, Muslim leaders had been mostly optimistic, envisioning a growing role for Muslims in U.S. society. Afterward, despite a brave show of unity and support for the nation, Muslim organizations became more open in showing their own conflicts and divisions and more vocal in opposing militant Islamic ideologies. By providing a concise summary of significant historical and contemporary research on Muslims in the United States, this volume will become an essential resource for both the scholar and the general reader interested in understanding the diverse communities that constitute Muslim America.

American Christians and Islam Apr 26 2022 Pointing to many evangelicals' unwillingness to acknowledge Islam's theological commonalities with Christianity and their continued portrayal of Islam as an "evil" and false religion, Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world."

The Muslims Are Coming! Sep 27 2019 Death came instantly to Imam Luqman, as four FBI agents fired semiautomatic rifles at him from a few feet away. Another sixty officers surrounded the building on that October morning, the culmination of a two-year undercover investigation that had infiltrated the imam's Detroit mosque. The FBI quickly claimed that Luqman Abdullah was "the leader of a domestic terrorist group." And yet, caught on tape, he had refused to help "do something" violent, as it might injure innocents, and no terrorism charges were ever lodged against him. Jameel Scott thought he was exercising his rights when he went to challenge an Israeli official's lecture at Manchester University. But the teenager's presence at the protest with fellow socialists made him the subject of police surveillance for the next two years. Counterterrorism agents visited his parents, his relatives, his school. They asked him for activists' names and told him not to attend

demonstrations. They called his mother and told her to move the family to another neighborhood. Although he doesn't identify as Muslim, Jameel had become another face of the presumed homegrown terrorist. The new front in the War on Terror is the "homegrown enemy," domestic terrorists who have become the focus of sprawling counterterrorism structures of policing and surveillance in the United States and across Europe. Domestic surveillance has mushroomed—at least 100,000 Muslims in America have been secretly under scrutiny. British police compiled a secret suspect list of more than 8,000 al-Qaeda "sympathizers," and in another operation included almost 300 children fifteen and under among the potential extremists investigated. MI5 doubled in size in just five years. Based on several years of research and reportage, in locations as disparate as Texas, New York, and Yorkshire, and written in engrossing, precise prose, this is the first comprehensive critique of counterradicalization strategies. The new policy and policing campaigns have been backed by an industry of freshly minted experts and liberal commentators. *The Muslims Are Coming!* looks at the way these debates have been transformed by the embrace of a narrowly configured and ill-conceived antiextremism.

Islam Is a Foreign Country Oct 28 2019 Considers the question: what does it mean to be Muslim and American? In *Islam Is a Foreign Country*, Zareena Grewal explores some of the most pressing debates about and among American Muslims: what does it mean to be Muslim and American? Who has the authority to speak for Islam and to lead the stunningly diverse population of American Muslims? Do their ties to the larger Muslim world undermine their efforts to make Islam an American religion? Offering rich insights into these questions and more, Grewal follows the journeys of American Muslim youth who travel in global, underground Islamic networks. Devoutly religious and often politically disaffected, these young men and women are in search of a home for themselves and their tradition. Through their stories, Grewal captures the multiple directions of the global flows of people, practices, and ideas that connect U.S. mosques to the Muslim world. By examining the tension between American Muslims' ambivalence toward the American mainstream and their desire to enter it, Grewal puts contemporary debates about Islam in the context of a long history of American racial and religious exclusions. Probing the competing obligations of American Muslims to the nation and to the umma (the global community of Muslim believers), *Islam is a Foreign Country* investigates the meaning of American citizenship and the place of Islam in a global age.

Islamic Values in the United States Oct 21 2021 The religion of Islam is now an American phenomenon. Once thought to be primarily a way of life of the Arabs and a faith alien to the Judeo-Christian heritage of this country, it has grown to a sufficient size and must be counted as one of the prominent and rapidly-growing religious movements in America. This ethnography of immigrant Muslims considers five Northeastern communities in detail. The investigation, including numerous interviews with members of these communities, provides a highly personalized look at what it means to be a believing, practicing Muslim in America at a time when Islam is under the critical scrutiny of international news. The authors describe the institutions and leadership of American Islam, Muslim law and its applications in the American context, examining the kinds of problems that beset Muslims trying to observe the elements of their faith in a potentially difficult environment. The intimations of family life and the roles and relationships of men and women are thoroughly detailed as well.

Educating the Muslims of America Jan 24 2022 "This volume of collected essays deals with a wide range of issues challenging Muslim Americans as they seek a well-rounded

religious education from adolescence to adulthood. Also explored are college-level education; the kinds of training being offered by Muslim chaplains in universities, hospitals, and prisons; and the ways in which Muslims are educating the American public in the face of hostility and prejudice, This timely volume is the first dedicated entirely to the neglected topic of Islamic education in the United States."--BOOK JACKET.

New Horizons of Muslim Diaspora in North America and Europe May 16 2021 The authors in this book criticize the essentialist approach to the concept of culture which reduces all diasporic Muslims to one category and ignores other important factors that shape the attitudes and behaviors of Muslims in the West, particularly their socio-economic status, gender, age, education, social class, and attitude toward religion and the Western lifestyle. The majority of Muslims in North America and Europe are reluctant to be reduced to 'Muslim,' although some of them feel obliged to accept the label. In this volume, the various chapters reveal that diasporic Muslims are heterogeneous given their diverse cultures and ethnicities; they are actually divided, not united, and have different views and interpretations of Islam and various attitudes and representations of Western realities. Due to their marginalization and often low social status, some Muslims turn to religion and traditional values and practices to overlook for their socio-economic exclusion from the European or American society.

Muslims in America Nov 02 2022 A history of the Muslim presence in the United States from slaves who managed to keep their religion to the varied communities of the twenty-first century covers the role of converts and immigrants in every stage of American history.

The securitisation of Islam Mar 26 2022 This book is a timely analysis of the securitisation of Islam in the US and an original contribution to securitisation theory by introducing the notion of 'indirect securitising speech acts' and the role of emotions and affect in securitisation studies. It is an innovative approach to Islamophobia, everyday racism and security.

Muslims in American History Nov 09 2020 There are many legacies within American history that have been inadvertently forgotten. Muslims and Islam in U.S. Education Jun 28 2022 Winner of Philosophy of Education Society of Australasia (PESA)'s inaugural PESA Book Awards in 2015, and The University of Hong Kong Research Output Prize for Education 2014-15. *Muslims and Islam in U.S. Education* explores the complex interface that exists between U.S. school curriculum, teaching practice about religion in public schools, societal and teacher attitudes toward Islam and Muslims, and multiculturalism as a framework for meeting the needs of minority group students. It presents multiculturalism as a concept that needs to be rethought and reformulated in the interest of creating a more democratic, inclusive, and informed society. Islam is an under-considered religion in American education, due in part to the fact that Muslims represent a very small minority of the population today (less than 1%). However, this group faces a crucial challenge of representation in United States society as a whole, as well as in its schools. Muslims in the United States are impacted by ignorance that news and opinion polls have demonstrated is widespread among the public in the last few decades. U.S. citizens who do not have a balanced, fair and accurate view of Islam can make a variety of decisions in the voting booth, in job hiring, and within

their small-scale but important personal networks and spheres of influence, that make a very negative impact on Muslims in the United States. This book presents new information that has implications for curricula, religious education, and multicultural education today, examining the unique case of Islam in U.S. education over the last 20 years. Chapters include: Perspectives on Multicultural Education 9/11, the Media, and the New Need to Know Islam and Muslims in Public Schools Blazing a Path for Intercultural Education This book is an essential resource for professors, researchers, and teachers of social studies, particularly those involved with multicultural issues, critical and sociocultural analysis of education and schools; as well as interdisciplinary scholars and students in anthropology and education.

Inside Jihad: How Radical Islam Works, Why It Should Terrify Us, How to Defeat It Jan 12 2021 Why has radical Islam become such a deadly threat, and why does it dominate the Muslim world? Dr. Tawfik Hamid answers these and other questions about this evil movement clearly and accessibly in his groundbreaking work. Dr. Hamid knows about radical Islam firsthand. In the early 1980s, he was recruited into Jamaa Islamiya, a terror group led at the time by Dr. Ayman al-Zawahiri, the man who went on to replace Osama bin Laden as leader of al-Qaeda. Eventually and miraculously, Dr. Hamid recognized the insidious nature of violent jihad and rejected its distortions of the Quran, the holy book of the Muslim faith. Ever since, he has pursued the reformation of Islam. He has written new interpretations of the Quran's key texts and has shared his message in many mosques. Inside Jihad reveals Dr. Hamid's deep insights about and passionate opposition to the Islamic terror movement drawn from his direct personal experiences. As a medical doctor and an expert on the psychology of the jihadist mindset, he explains the roles that sex, fear, petrodollars and the hijab for women have played in its proliferation. And he details his bold plan for Islamic reformation that would eventually change the jihadists minds and end their reign of terror.

American Muslim Agenda Feb 10 2021 This book, *The American Muslim Agenda*, is a primer, a blueprint, a roadmap for American Muslims to consider. A Muslim is someone who is a conflict mitigator and a goodwill nurturer, following a formula for peaceful societies practiced by Prophet Muhammad (PBUH) and guided by the Quran. As a community, American Muslims have not developed any concrete plans to extricate themselves out of the chaotic situations, hostility and incessant Islamophobic rhetoric we face. Each time a terrorist acts out, we start praying and wishing that the terrorist not be a Muslim. We are Americans, and we can do better than that. This book paves the way for us to own the mistakes we have made, remedy them, and become fully integrated Americans. There is only one America, and all of us are fully integrated parts of that nation. We need to learn to engage with those who are opposed to us, and I have some good success stories to share on that front. When we start defending America and American values we are in! We become an integral part of American Fabric.

American Crescent Jan 30 2020 A prominent Muslim cleric reflects on his experiences as a Muslim in the United States and what it means to be Arab, Muslim, and American in the post-September 11 world, arguing that Islam and America have great benefits to offer each other. 35,000 first printing.

Black Pilgrimage to Islam Jun 04 2020 Islam has become an increasingly attractive option for many African-Americans. This book offers an ethnographic study of this phenomenon & asks what attraction the Qur'an has for them & how the Islamic lifestyle accommodates mainstream US values.

Why the West Fears Islam Nov 29 2019 Jocelyne Cesari examines the idea that Islam might threaten the core values of the West through testimonies from Muslims in France, Germany, the United Kingdom, the Netherlands, and the US. Her book is an unprecedented exploration of Muslim religious and political life based on several years of field work in Europe and in the United States.

Journey into America Nov 21 2021 Nearly seven million Muslims live in the United States today, and their relations with non-Muslims are strained. Many Americans associate Islam with figures such as Osama bin Laden, and they worry about "homegrown terrorists." To shed light on this increasingly important religious group and counter mutual distrust, renowned scholar Akbar Ahmed conducted the most comprehensive study to date of the American Muslim community. *Journey into America* explores and documents how Muslims are fitting into U.S. society, placing their experience within the larger context of American identity. This eye-opening book also offers a fresh and insightful perspective on American history and society. Following up on his critically acclaimed *Journey into Islam: The Crisis of Globalization* (Brookings, 2007), Ahmed and his team of young researchers traveled for a year through more than seventy-five cities across the United States—from New York City to Salt Lake City; from Las Vegas to Miami; from the large Muslim enclave in Dearborn, Michigan, to small, predominantly white towns like Arab, Alabama. They visited homes, schools, and over one hundred mosques to discover what Muslims are thinking and how they are living every day in America. In this unprecedented exploration of American Muslim communities, Ahmed asked challenging questions: Can we expect an increase in homegrown terrorism? How do American Muslims of Arab descent differ from those of other origins (for example, Somalia or South Asia)? Why are so many white women converting to Islam? How can a Muslim become accepted fully as an "American," and what does that mean? He also delves into the potentially sticky area of relations with other religions. For example, is there truly a deep divide between Muslims and Jews in America? And how well do Muslims get along with other religious groups, such as Mormons in Utah? *Journey into America* is equal parts anthropological research, listening tour, and travelogue. Whereas Ahmed's previous book took the reader into homes, schools, and mosques in the Muslim world, his new quest takes us into the heart of America and its Muslim communities. It is absolutely essential reading for anyone trying to make sense of America today.

Radical Islam in America Jun 16 2021 The radicalization of Muslims and Islamic institutions in the United States, Europe, and across the Islamic world has fostered a new generation of Islamist activists, many of them willing to use violence to achieve their aims. In *Radical Islam in America*, Chris Heffelfinger describes the development of the Islamist movement, examines its efforts and influence in the West, and suggests strategies to reduce or eliminate the threat of Islamist terrorism. The book distinguishes Islamism (the fundamentalist political movement based on Islamic identity and values) from the Muslim faith and explores Islamists' substantial inroads with Muslims and Muslim educational institutions in the West since the 1960s, as well as the larger relationship between Islamist political activism and militancy. Heffelfinger argues that the West has often mischaracterized jihadists as a nihilistic, irrational force desiring nothing but death and destruction. Instead, we need to recognize that Islamists are part of a much broader struggle over the political, social, economic, and legal direction of Muslims around the world. Our failure to understand the motives behind terrorist tactics has resulted not only in ineffective counterterrorism strategies but also in the proliferation of Islamist militants and sympathizers. Among the hundreds of terrorism-related arrests since 9/11, a large number were young, socially alienated Muslims who were moved by the jihadist message but not directed by jihadist networks overseas. That phenomenon—and the ideology behind it—is what Western society and governments must fully understand in order to construct a viable policy to confront it. This book will appeal to scholars and general readers interested in global politics, current affairs, Middle East terrorism, and counterterrorism.

The Muslim Next Door Dec 31 2019 In today's world of conflict and change, no one can escape the reality that Islam is spreading very fast. Since 9/11, the Muslim population has doubled in the United States of America. Muslims are building mosques and Islamic centers throughout the country. There is an increasing fear among

Americans of the imminent threat of terrorism by Muslims in America. What does Islam teach about terrorism? What is Jihad? What does Islam teach about Christians and Jews? What are the basic beliefs of Muslims? Are all Muslims extremists? How about the ones living among us? Do Muslims hate non-Muslims (specifically Christians and Jews)? Is Islam a religion of peace? These and many other questions will be answered in this book. Understanding Islam is the only way to reach out to Muslims in America and worldwide. *The Muslim Next Door*, is a guide for churches and individuals to evangelize Muslims. A clear understanding of pure Islamic knowledge can make a difference in our relationships with Muslims in our neighborhoods.

What Islam Did For Us Mar 02 2020 In these troubled and extremist times, when the religion and culture of Islam is under seemingly perpetual attack, it is salutary to consider how much we have in common, and how much we, in the Christian West, owe to the spiritual insights of that great culture. Religious toleration, respect for learning, the concepts of chivalry and brotherhood - these principles were brought by the Islamic Moors when, in medieval Spain, they acted as 'Beacons of Light' in the Dark Ages of European religious arrogance, intolerance and persecution. The Moors gave Europe an architectural and artistic heritage that is still a source of wonder to the modern world. It was in translation from Arabic, not the original Greek, that knowledge of the Greek philosophy became prominent in Christian thought. Western mathematics are based on Arabic numerals and calculations, and the first effective medical school in Europe was founded by Jewish doctors who had been trained in Moorish Spain and North Africa. Tim Wallace-Murphy shows how over the last century it was European Western Powers who laid the foundations for the chaos that reigns in the Middle East. We need to find a just and equitable solution to these problems and we should begin by acknowledging our common spiritual heritage and the profound debt that Western civilization owes to Islamic culture.
