Bring Your Whole Self To Work May 29 2022 In today's work environment, the lines between our professional and personal lives are blurred more than ever before. Whatever is happening to us outside of our workplace —whether stressful, painful, or joyful —follows us into work as well. We may think we have to keep these realities under wraps and act as if we "have it all together." But as Mike Robbins explains, we can work better, lead better, and be more engaged and fulfilled if —instead of trying to hide who we are —we show up fully and authentically. Mike, a sought-after motivational speaker and business consultant, has spent more than 15 years researching, writing, and speaking about essential human experiences and high performance in the workplace. His clients have ranged from Google to Citibank, from the U.S. Department of Labor to the San Francisco Giants. From small start-ups in Silicon Valley to family-owned businesses in the Midwest. From what he's seen and studied over the years, Mike believes that for us to thrive professionally, we must be willing to bring our whole selves to the work that we do. Bringing our whole selves to work means acknowledging that we're all vulnerable, imperfect human beings doing the best we can. It means having the courage to take risks, speak up, have compassion, ask for help, connect with others in a genuine way, and allow ourselves to be truly seen. In this book, Mike outlines five principles we can use to approach our own work in this spirit of openness and humanity, and to help the people we work with feel safe enough to do the same, so that the teams and organizations we're a part of can truly succeed. "This book will offer you insights, ideas, and tools to inspire you to bring all of who you are to the work that you do —regardless of where you work, what kind of work you do, and with whom you do it. And, if you're an owner, leader, or just someone who wants to have influence on those around you —this book will also give you specific techniques for how to build or enhance your team's culture in such a way that encourages others to bring all of who they are to work."

Thanks, Praise, Honor, and Glory to the Triune God for Leading and Guidance in Documenting Lead Poisoning in the Public Schools and the Obstructions of Justice in Order to Conceal the Indisputable Truths Nov 22 2021 School buildings in Maryland, Washington, D.C., New York, Boston, Chicago, South Carolina, and throughout America that have chipping, peeling, and flaking lead-based paint on the interior and exterior are exposing our children and others to lead poisoning. Having renovations performed on these already lead hazardous schools without implementing the proper protective protocols to prevent millions of more microscopic lead dust particles from spreading only compounds the exposure to lead poisoning. Moreover, if these same lead hazardous school buildings, also, have their water supply flowing through leaded pipes, pipes that are connected with lead solder, or have leaded fixtures attached to the fountains, then, our leaders of tomorrow and others are ingesting even more lead poisoning through drinking lead-tainted water. This non-fiction book documents the truth that a Mathematics teacher, who has maintained her certification and accreditation in lead hazard evaluation and control since 1997 as a Repainting and Maintenance Supervisor, an Inspector Technician, a Lead Abatement Service Contractor, and thus, a Recognized Lead Expert by the Maryland Department of the Environment, identified four schools in Baltimore City that had either deteriorating, chipping, and flaking lead-based paint, major renovations that disturbed lead hazardous components and didn't have the proper protective protocols in place, or drinking water that was lead-contaminated. She attempted on numerous occasions to have the health hazards addressed and resolved. However, the powers that be only wanted to silence her and continue concealing the truth that for over a decade the custodians of these public schools, the owners, and others knowingly, willingly, and negligently exposed lives to lead poisoning. Moreover, the detailed, documented true findings from five Finders of Fact that substantiate that the powers that be retaliated against the messenger because she blew the whistle regarding the lead hazardous in these Baltimore City schools.

Beauty and Business Aug 08 2020 Beauty seems simple; we know it when we see it. But of course our ideas about what is attractive are influenced by a broad range of social and economic factors, and in Beauty and Business leading historians set out to provide this important cultural context. How have retailers shaped popular consciousness about beauty? And how, in turn, have cultural assumptions influenced the commodification of beauty? The contributors here look to particular examples in order to address these questions, turning their attention to topics ranging from the social role of the African American hair salon, and the sexual dynamics of bathing suits and shirtcollars, to the deeper meanings of corsets and what the Avon lady tells us about changing American values. As a whole, these essays force us to reckon with the ways that beauty has been made, bought, and sold in modern America.
