Explorer's Guide 50 Hikes in West Virginia: Walks, Hikes, and Backpacks from the Allegheny Mountains to the Ohio River (Second Edition) Sep 03 2020 "West Virginia native and long-distance hiker and author Leonard M. Adkins has walked more than 400 miles to uncover 50 hikes available to outdoor travelers of all ages and abilities. From rugged Allegheny Mountain summits to the banks of the Ohio River, the author leads you to hikes beside rushing streams and crashing waterfalls, up to windswept plains whose flora and fauna resemble that of Canada's, and into hill country's hidden valleys. Other journeys traverse rocky mountain crests, reveal far-reaching vistas, travel miles of nearly level rail-trails, and explore historic sites and Civil War battlefields. One hike passes by a listing wooden shelter once used by President Lyndon B. Johnson; another goes into a series of tunnels cut through the mountains. The shortest hike is 0.5 mile, the longest is a challenging multiday backpacking trek on the state's premier long-distance route, the Allegheny Trail. An overview chart provides information on the 50 hikes at a glance, making it easy to choose the hike that's right for you. Each hike description includes trailhead directions, total distance, hiking time, vertical rise, a detailed account of the route, and a topographic map"--Publishers website.

Virginia 2020 Master Electrician Exam Questions and Study Guide Oct 17 2021 The Virginia 2020 Master study guide will help you prepare for the exam by providing 12 practice open book exams and 2 Final Closed Book Exams. Includes Virginia License Forms and Sample Applications. This book also covers most topics that are included on all Master Electricians exams such as conductor sizing and protection, motors, transformers, voltage drop, over-current protection and residential and commercial load calculations. The text contains the most widely used electrical calculations and formulas the reader needs to pass the Master electrical competency exam. About the Author Ray Holder has worked in the electrical industry for more than 40 years as an apprentice, journeyman, master, field engineer, estimator, business manager, contractor, inspector, and instructor. He is a graduate of Texas State University and holds a Bachelor of Science Degree in Occupational Education. A certified instructor of electrical trades, he has been awarded a lifetime teaching certificate from the Texas Education Agency in the field of Vocational Education. Mr. Holder has taught thousands of students at Austin Community College; Austin Texas Odessa College at Odessa, Texas; Technical-Vocational Institute of Albuquerque, New Mexico; Howard College at San Angelo, Texas, and in the public school systems in Fort Worth and San Antonio, Texas. He is currently Director of Education for Electrical Seminars, Inc. of San Marcos, Texas. Mr. Holder is an active member of the National Fire Protection Association, International Association of Electrical Inspectors, and the International Brotherhood of Electrical Workers.

The Complete Guide to Planning Your Estate in Virginia Nov 29 2022 What happens to your estate after you are gone is very much within your control. Estate planning is not only for the wealthy; it is for everyone. It is simply the process of deciding where your assets are to be distributed after your death. For those people who wish to preserve their assets for designated purposes — such as family or special charities — it becomes necessary to make special advance preparations. To ensure your assets are protected and final wishes are carried out, there are some common actions that should be taken now. Proper estate planning allows you to plan for yourself and your loved ones without giving up control of your affairs. Your estate plan should also allow for the possibility of your own disability. It should detail what you own and whom you want to leave it to at a time of your choosing and the way you want. Your estate plan should include fully disclosed, controlled costs for you and your loved ones. The last thing you want to worry about is having your estate drained of value through taxes and legal costs. The right plan can protect the value of your estate and spare your loved ones unnecessary hassles and legal conflicts. The Complete Guide to Planning Your Estate in Virginia will help you glide through this complicated process. This new book has been adapted to offer Ohio residents state-specific advice for estate planning. Co-authors Margo Pierce and Linda C. Ashar, attorneys at law, have crafted an estate planning primer, allowing Virginia residents to become more informed and more involved during the process. Many books on estate planning indicate you do not need the services of an attorney, but this book highly recommends using an attorney versed in this area: You should not go through the process alone. This book is intended explain the complicated issues, terminology, and planning strategies of estate planning so when you do meet with a qualified attorney, you will be well prepared. You will understand the legal terms and be ready to discuss issues and strategies with familiarity, saving you time and legal fees and ensuring peace of mind. Virginia -specific information is offered throughout this book, including: Virginia 's probate code; Virginia rules, regulations, and laws specific to estate planning; elements of a valid Virginia will; planning your living will in Virginia; explanations of Virginia laws regarding durable health care power of attorneys, do not resuscitate (DNR) orders, and directives to withhold CPR. The book's easy-to-understand context clarifies this complicated and sensitive subject and gives readers the power to take control of their future. This book also offers an overview of abatement rules, settlement costs, guardianship and minor children, executors and trustees, life insurance, potential long-term care needs, marital deductions, types of trusts, gift splitting, survivorship deeds, 529 plans, reducing or eliminating estate taxes, avoiding tax on life insurance, using insurance to pay estate taxes, gift tax issues, generation skipping transfer tax, and tax-deferred accounts. Estate planning should be a positive experience. It involves reviewing your situation and planning for your future. Although few people want to think about the possibility of disability or disease, advance planning is also a way to show your love and to reduce potential distress later. Other books offer a non-state-specific overview of estate planning, causing many readers to be misinformed about rules and regulations particular to their state; but, this new book provides information Virginia residents need to know. Do not get outdated or wrong information that does not pertain to you specifically. Use this new book to craft an estate plan that is not only legally sound but also fully carries out your last wishes and protects your loved ones.

Virginia 2020 Journeyman Electrician Exam Questions and Study Guide Sep 15 2021 The Virginia 2020 Journeyman study guide will help you prepare for the exam by providing 12

practice open book exams and 2 Final Closed Book Exams. Includes Virginia License Forms and Sample Applications. This book also covers most topics that are included on all Journeyman Electricians exams such as conductor sizing and protection, motors, transformers, voltage drop, over-current protection and residential and commercial load calculations. The text contains the most widely used electrical calculations and formulas the reader needs to pass the Journeyman electrical competency exam. About the Author Ray Holder has worked in the electrical industry for more than 40 years as an apprentice, journeyman, master, field engineer, estimator, business manager, contractor, inspector, and instructor. He is a graduate of Texas State University and holds a Bachelor of Science Degree in Occupational Education. A certified instructor of electrical trades, he has been awarded a lifetime teaching certificate from the Texas Education Agency in the field of Vocational Education. Mr. Holder has taught thousands of students at Austin Community College; Austin Texas Odessa College at Odessa, Texas; Technical-Vocational Institute of Albuquerque, New Mexico; Howard College at San Angelo, Texas, and in the public school systems in Fort Worth and San Antonio, Texas. He is currently Director of Education for Electrical Seminars, Inc. of San Marcos, Texas. Mr. Holder is an active member of the National Fire Protection Association, International Association of Electrical Inspectors, and the International Brotherhood of Electrical Workers.
