Providence: The Journey, the Discovery and the Destination is a true story. It is an inspirational story that depicts the revelations that a man named William Francis experienced over the course of his life. William came to realize how the LORD GOD was working in his life; finally understanding why HE led him through what he perceived to be deserts and wildernesses at various stages of his life. It demonstrates how God showed him that even when he felt abandoned and unloved, that it was indeed HE, the LORD GOD Almighty, who had brought him through those places. Along the way he makes discoveries that enhance his and his family's lives through divine revelations about where God was leading him...his destination. William's

journey began at a very young age. His was the journey of a restless soul whose destination would be the discovering of the truth about the real JESUS. In the process, he discovers the truth about himself and his true purpose in life. William would encounter many trials, tribulations and disappointments on his journey, but he would ultimately come to a place of acceptance with himself. And eventually he would come to experience a genuine personal relationship with GOD; a relationship which produced times of happiness and joy, perpetual love and internal peace of mind, and relief of conscience even in times of crisis. In hindsight, William realized that GOD was guiding and directing his path. All the while, GOD was teaching him how to live a fulfilled life. Though some of the lessons were hard learned, it was all for his good. We all tell stories about who we are, where we come from, and where we are going. These personal myths in turn shape who we become and what we believe—as individuals, families, and nations. This book offers readers the tools to detect the story line in their own lives and to write and tell it to others, opening up a hidden world of self-discovery and meaning. The numerous accessible exercises are followed by examples of personal stories and inspiring quotes to stimulate the journey to the center of one's purpose. "By the art of fantasy and imagination, story and image, these authors map the ways personal stories deepen into transpersonal mythic journeys." —David Miller, Ph.D., Watson-Ledden Professor of Religion, Syracuse University

Sandra Miller takes you on her journey beginning in beautiful nature, the hard work of life on the farm, to exotic cities, countries, and cultures that expanded her horizons. In *Teachable Moments*, you'll meet the characters that made a positive difference in her ability to bring her dreams to reality. Her stories bring readers belly laughter, hoots, high fives, and occasional tears. She makes it easy for us to become her best cheerleaders and fans. Depression, self-loathing, unemployment, and destroyed relationships: the effects of drug and alcohol addiction run so much deeper than the morning-after hangover. However, awareness alone will not save the struggling addict, as J.P. Willson reveals in his fearless examination of substance dependency; recovery means doing the mental and emotional work to look inside oneself and discover a way to live as a sober, fulfilled individual in an often challenging world. Through *The Mind's Eye: A Journey of Self-Discovery* is a thought-provoking and honest examination of the emotional, psychological, and physical ways someone must enact their own healing. As a recovering alcoholic, Willson courageously shares his own story of addiction, as well the ups and downs he experienced along the road to recovery. Packed with astonishing insights about our culture's relationship to alcohol, as well as the lies we tell ourselves in order to keep using, this book will change the way you view addiction. Willson has no qualms about telling the reader how difficult recovery is—and how there is no quick cure-all—but his compassionate, candid reflections help foster the knowledge and will to change. *Se wo were fi na wosankofa a yenkyi*. It is not wrong to go back for that which you have forgotten. Hearing the call of her ancestors, ten-year-old Ahmyah embarks on a voyage of self-discovery as she reconnects with her grandparents, aunts, uncles, and a host of cousins and other family and friends from halfway around the world, in Ghana, West Africa. "Sometimes God comes like a thief in the night; sometimes He breaks down the front door when you didn't even know He was coming! The author's *Unexpected Visitor* made mincemeat of her well-ordered atheist life, taking her into vast, uncharted regions of her own heart. Traveling from Peru to India, she eventually found her spiritual home as a Kriyaban-yogi, a disciple of a great Indian Master, Paramhansa Yogananda. A fascinating, almost daily account of this sudden, total transformation."—Asha Nayaswami, Founding Member, Ananda Worldwide, Author Winner of the 2021 Best Independent Author Book Award. Raised by atheists, Jennifer Duke rejected any possibility of an omniscient creator. At age fifty, she could not have foreseen the cataclysmic shift that was about to occur in her life – and the profound inner experiences that would challenge her entire view of reality. What changed? What took her to Peru and India in search of answers? This book is not about organized religion. As Jennifer would discover, we do not need priests, dogmas, institutions, or intermediaries to experience our own direct, inner connection with Spirit. No one and no external entity can limit our access to the Divine Light. Through her direct experiences of union with Spirit, she was able, in time, to navigate the revolutionary shift in her understanding of Truth. In Jennifer's clear, sincere narrative we feel the authenticity of her journey, as she discovers her Soul nature, the truths of the universe, and the path of Self-realization. This is a profound and earnest account of a life unfolding, expanding into the divine and eternal Truth that awaits us all. This is a book for anyone affected by another person's cancer. It deals with practical and emotional issues that arise on the journey. *One Woman's Journey: Finding Hope* is an inspirational autobiography about the ability to push through the challenges of life with a strong grasp on hope. How

Homeschooling Changes Parents and Children Alike. This captivating, true story, pushes the limits of what we all have believed to be true. As Medium Ashley Dawn helps a grieving family connect to their son 'J', together they discover more about the universe than they ever thought possible. With her link to the other side, her guide 'J' provides answers to deep and controversial questions, shedding light on that which is otherwise hidden. "Is there such thing as hell?" J's answer: "At home- where I am (heaven) everything is beautiful. On Earth we feel more separated from each other, and "THE" (God or source), than at any other place in the universe. This illusion creates fear. There is no greater hell than the one we create here, on earth" "How is earth different than other realms?" J's answer: "Each realm is different and as you use less empathy and telepathy they become more difficult. Earth is the most difficult and hardest place to be, so you must take classes before you're allowed to enter into a realm. The events and emotions on earth also go from passion to despair. These constant ups and downs are challenging to navigate. This makes earth one of the hardest realms from which to learn. However, earth also provides a tremendous amount of growth for a soul's journey." "This portrait of Japanese country life reminds us that at its core, a happy and healthy life is based on the bonds of food, family, tradition, community, and the richness of nature." —John Einarsen, Founding Editor and Art Director of Kyoto Journal

What would it be like to move to Japan, leaving everyone you know behind, to become part of a traditional Japanese household? *At Home in Japan* tells an extraordinary true story of a foreign woman who goes through a fantastic transformation, as she makes a move from a suburban lifestyle in California to a new life, living in Japan. She dedicates 30 years of her life to being a housewife, custodian and chatelaine of a 350-year-old farmhouse in rural Japan. This astonishing book traces a circular path from where Rebecca began, to living under Japanese customs—from the essential day to day details of life in the house and village, through relationships with family, neighbors and the natural and supernatural entities with which the family shares the home. Rebecca Otowa then focuses on her inner life, touching on some of the pivotal memories of her time in Japan, the lessons in perception that Japan has taught her and how she has been changed by living in Japan. An insightful and compelling read, *At Home in Japan* is a beautifully written and illustrated reminiscence of a once pure life made extraordinary.

In the midst of World War II, a German-American family finds themselves stranded in Japan in this inspiring tale of an extraordinary family adapting to the hazards of fate, and finding salvation in each other. In the spring of 1941, seven-year-old Hildegarde Ercklentz and her family leave their home in New York City and set off for their native Germany, where her father has been called for work. It was meant to be an epic journey across the US and the Pacific, but when Hitler invades Russia they are trapped in Japan for six years. This is a spellbinding memoir and a moving saga. *To Free a Family* tells the remarkable story of Mary Walker, who in August 1848 fled her owner for refuge in the north and spent the next seventeen years trying to recover her son and daughter. Her freedom, like that of thousands who escaped from bondage, came at a great price—remorse at parting without a word, fear for her family's fate. This book gathers the author's interviews with twenty leading sociologists from various fields at nine different prestigious universities in the USA, including their viewpoints, anecdotes and experiences in the world of sociology. Each chapter presents an interview with one sociologist, covering their views on contemporary sociology, their early university experiences, teaching experiences, experiences with publishing, and their reflections on life as a sociologist. Through the dialogues, readers can learn about sociology as well as sociologists' lives in a unique and insightful way – just as the author did – and embark on a journey of discovering sociology. The book helps readers find their own answers to the two main questions explored: “What is sociology?” and “What is a sociologist's life like?” Srila Prabhupada declares, "We don't say that this scientific knowledge is useless. Mechanics, electronics – this is also knowledge. But the central point is atma-jnana – self-knowledge, knowledge of the soul." In these thirty-one essays, talks, and informal conversations, Srila Prabhupada reveals the central point of essential self-knowledge – a knowledge that makes all other knowledge and activities pale in comparison. Brighten your

life with the light of self-knowledge and gain a world perspective usually reserved for ascetics and saints. Everyone knows someone who has been molested, sexually abused, or raped. The problem? No one talks about it. *Brenda's Path: A Journey to Self-Discovery* is a novel about perceptions of sexuality. It brings to life the rape of a 12-year-old girl. Brenda lives with her family in a working-class suburb of Detroit, Michigan. She is a good student and popular. Her leadership qualities are obvious. She plays sports and loves to dance. She is active with her church youth group and serves as a counselor in summer youth camps. On the surface, Brenda appears to be socially, emotionally, and spiritually healthy. However, she hides an ugly secret that weighs heavily on her: She is a survivor of rape. Hopefully, this Guide for Discussion Leaders will motivate readers of all ages to examine their own perceptions of sexuality, and more importantly, to explore what a healthy and ethical sexual self might look like. After reading Brenda's story, and after follow-up discussions, communities may want to consider developing a comprehensive action plan to reduce the incidence of abuse in families, neighborhoods, schools, clubs, and the larger community. Once they can agree on a clear portrait of what is meant by a healthy and ethical sexual self, these representatives can then build a plan and timeline to educate the broader community through age-appropriate channels. This plan should reflect input from the educational, spiritual, and mental health communities, and must reach beyond survivors and perpetrators so the broader community knows, understands, and is prepared to act if and when sexual abuse occurs.

In our age of global crises—pandemics, climate crisis, crippling inequality—this sentiment is more necessary than ever. Solutions to these seemingly insurmountable problems demand new approaches to thinking and acting locally, nationally, and transnationally, sometimes sequentially but often simultaneously. This is the mentality of the immigrant, the exchange student, the global native, and all who have made a life in a new place by choice or by necessity. Yet we suffer from a lack of the truly capacious thinking that is so urgently needed. Vishakha N. Desai uses her life experiences to explore the significance of living globally and its urgency for our current moment. She weaves her narrative arc from growing up in a Gandhian household in Ahmedabad to arriving in the United States as a seventeen-year-old exchange student and her subsequent career as a dancer, curator, institutional leader, and teacher against the broad sweep of political and social changes in the two countries she calls home. Through her personal story, Desai reframes the idea of what it means to be global, considering how to lead a life of multiple belongings without losing local and national affinities. Vividly conjuring the complexities and exhilaration of a life that is rooted in many places, *World as Family* is a vital book for everyone who aspires to connect across borders—real and perceived—and bring to fruition the ideal of a global family. Imagine this: You wake up before your alarm clock, inhale a deep breath of gratitude and know that the most amazing day is ahead of you. Hepatitis C is a liver disease caused by the hepatitis C virus (HCV) and infects approximately 75 million individuals worldwide. It is also one of the major causes of liver cancer and liver transplants. The elucidation of the HCV genome, and the development of a whole cell system to study the virus spurred the search for novel direct acting antiviral drugs to cure this disease. This global effort culminated in the development of direct acting antiviral drugs that led to cure rates approaching 100% in all patient populations after only 8-12 weeks of therapy. These efforts resulted in one of the greatest achievements in public health and provides the potential for eliminating HCV as a major disease worldwide. This volume is aimed at a broad audience of academic and industrial scientists interested in the discovery and development of drugs to treat viral diseases and those interested in reading about one of the most unique accomplishments in biomedical research. The volume will provide a one of a kind reference work that highlights the many efforts, from the discovery of the HCV virus, to the invention of breakthrough medicines and their use in the real world to cure patients. It is the companion book to the volume "HCV: The Journey from Discovery to a Cure - Volume II".

Her life soon spiralled and as a teenager she suffered from drug and alcohol addiction, as she struggled to find her birth parents and her true identity. This is a story about one family's journey with an autistic family member, Steven; as told by his mother. It is also Steven's story from birth to the present as a man in his early 40's. As Houston's beloved KPRC weatherman for more than 20 years, Frank Billingsley seems like a relative to many people. His optimistic presence comes into their homes and reassures that even the gloomiest of rainclouds probably has a silver lining. He has such a way with people that it is obvious that he comes by his sunny, outgoing demeanor naturally. Billingsley always wondered if he got his personality, his bright blue eyes, or his love of people from his mother or his father. But he was adopted, so he never knew.

Swabbed & Found is the fascinating story of how he combined cutting-edge DNA tests and genealogical programs in combination with his investigative skills to put the pieces of his family tree in order. Along the way he discovered that people are not always who they seem, or even who they think they are. Each time he would think that he had come to a dead end, he found himself helped by a new friend or a newly discovered relative, until finally, he was able to find the family he had wondered about for his whole life. The science of genealogy is booming, and in his typical open fashion, Billingsley puts a human face on it. His story shows

that who we are is not necessarily who gave us our eye color, but who we love. Knowing our genealogical background is important, but wielding that information with care and compassion is a vital part of this new science. Providing a clear road map of how the DNA discovery process works, resources, and explanations of just what second cousin-once-removed really means, as well as insight on life as a gay public figure in the South, this generous book makes it clear why Billingsley has found such a home in Houston's heart. Anyone who has ever wondered about missing branches on their family tree, wanted to know more about their heritage, or wanted to understand, once and for all, that we are all really one big family, will find Swabbed & Found enlightening and engaging. A SPIRITUAL PATHWAY TO RECOVERY FROM ADDICTION is the memoir of a group of physicians going through an intensive rehab program for addiction to drugs and alcohol. It is presented as a collection of their stories and the lessons they encountered during their time together. It is a step by step guide to understanding the disease of addiction and how to treat it. Here you will discover how to overcome alcoholism and drug addiction through the use of spiritual tools-a simple and successful treatment that works for impaired physicians and can be used by anyone. You will find answers to these questions. Am I an alcoholic? Am I an addict? How did I get this disease? Can it be cured? Will I ever be able to drink socially again? How can I get over this insane craving? How can spiritual principles help me? What is a Higher Power, and why do I need one? Topics covered include The disease concept of addiction Overcoming the uncontrollable craving Finding the openness, honesty, and willingness to change Dealing with past mistakes and removing character defects Exchanging my old addictive ways of thinking for healthier ones Finding spiritual principles I can live by Living without fear or worry Finding happiness within myself Addiction occurs among physicians at the same rate as in the general population, about 10%. Unlike the general population, however, an intensive rehabilitation program, geared specifically for their profession, vastly improves their chances of finding long-term sobriety. Over 70% of these physicians will be clean and sober-and practicing medicine-five years later. How is this achieved, and can these principles be applied to anyone? And, who were these doctors, what did they learn, and how did it change them? As they proceed on a course of personal self-discovery, they share their past experiences, fears, and hopes. As the lessons of recovery begin to sink in, their thinking and behavior change from that of a self-absorbed ego-driven wreck to someone capable of changing their life for the better, without drugs or alcohol. The stakes are high, for they are threatened with the loss of their medical licenses if they fail. The players: Big Robert, the family doctor hooked on crack, who never met a donut he didn't like; Mike, the OB-GYN from New Jersey, who smoked too many cigarettes and hid his vodka in the clothes hamper; John the athlete, who always traveled with whiskey miniatures in his socks; Reggie, the preacher from Memphis who loved Jack Daniels and the ladies in the front pew, and Timmy, the pharmacist from Des Moines who like to shoot Ritalin after work and play doctor with his pretty sales clerk. I was the bat-shit crazy oncologist who thought it was normal to shoot up cocaine, and who wouldn't stop for lunch at a restaurant unless they had a wine list. Their experiences are real and terrible. The surgeon who came out of a blackout standing over a patient in the operating room. The neurologist from Hawaii who overdosed on heroin rather than admit his own faults. The podiatrist from Dublin who was caught drunk and having sex with a patient in his office. The plastic surgeon who put blue food dye in his vodka and hid it in a mouthwash bottle under the sink. The nurse who left her infant in the car seat while she was in the hood scoring crack and came back to check on her-three hours later. Who will benefit from reading this book? The reader who wants to know if his drinking is out of control. The reader who knows he is in trouble, and wants to change. The old-timer who wants to learn more about his disease. And the practitioner who treats these people. ABOUT THE AUTHOR Dr. Meadows served on the faculty at the University of North Carolina School of Medicine and Duke University School of Medicine. His person recovery from drugs and alcohol began May 7, 1997. He spends his time writing and counseling those seeking to overcome their addiction.
