Shi'i Islam, with its rich and extensive history, has played a crucial role in the evolution of Islam as both a major world religion and civilization. The prolific achievements of Shi'i theologians, philosophers and others are testament to the spiritual and intellectual wealth of this community. Yet Shi'i studies has unjustly remained a long-neglected field, despite the important contribution that Shi'ism has made to Islamic traditions. Only in recent decades, partially spurred by global interest in political events of the Middle East, have scholars made some significant contributions in this area. The Study of Shi'i Islam presents papers originally delivered at the first international colloquium dedicated exclusively to Shi'i studies, held in 2010 at The Institute of Ismaili Studies, London. Within the book are eight sections, namely, history, the Qur'an and its Shi'i interpretations, hadith, law, authority, theology, rites and rituals, and intellectual traditions and philosophy. Each section begins with an introduction contextualizing the aspects of studying Shi'i Islam particular to its theme, before going on to address topics such as the state of the field, methodology and tools, and the primary issues with which contemporary scholars of Shi'i studies are dealing. The scope and depth here covered makes this book of especial interest to researchers and students alike within the field of Islamic studies. The volume benefits from the diverse expertise of nearly 30 world-class scholars, including Mohammad-Ali Amir-Moezzi, Meir M. Bar-Asher, Farhad Daftary, Daniel De Smet, Gerald R. Hawting, Nader El-Bizri, Etan Kohlberg, Wilferd Madelung, Andrew Newman, Ismail K.

Poonawala, Sabine Schmidtke and Paul E. Walker. *The Chemistry of the Blood* is one of Dr. M. R. De Haan's most widely read books. In it, his scientific background is uniquely combined with his skillful exposition of Scripture to correlate Scripture and science. In addition to the title chapter on *The Chemistry of the Blood*, Dr. De Haan also discusses such intriguing themes as 'The Chemistry of Tears,' 'The Chemistry of the Bible,' 'The Chemistry of Man,' and other striking truths. The interdisciplinary journal *Brill Research Perspectives in Art and Law*, aims to gather outstanding contributions to the fascinating debate at the intersection of art and law. The focus of the journal involves all the aspects (philosophical, juridical, sociological, technological and cultural) characterizing the relationship between law and art. Ernst Cassirer occupies a unique space in Twentieth-century philosophy. A great liberal humanist, his multi-faceted work spans the history of philosophy, the philosophy of science, intellectual history, aesthetics, epistemology, the study of language and myth, and more. *The Philosophy of Symbolic Forms* is Cassirer's most important work. It was first published in German in 1923, the third and final volume appearing in 1929. In it Cassirer presents a radical new philosophical worldview - at once rich, creative and controversial - of human beings as fundamentally "symbolic animals," placing signs and systems of expression between themselves and the world. This major new translation, the first for over fifty years, brings Cassirer's magnum opus to a new generation of students and scholars. *Volume 2: Mythical Thought* considers the role of myth in human thought and expression. Cassirer examines the main features of morphology of myth before tackling the relationship between myth and self-consciousness. He argues that human beings' experience of the world around them is charged with affective and emotional significance, as desirable or hateful, comforting or threatening. It is this type of meaning which underlies mythical consciousness and explains its disregard for the distinction between appearance and reality. From mythical thought religion and art develop, Cassirer argues, making the mythical view of the world the earliest form of philosophical expression. Correcting important errors in previous English editions, this translation reflects the contributions of significant advances in Cassirer scholarship over the last twenty to thirty years. Each volume includes a new introduction and translator's notes by S. G. Lofts, a foreword by Peter Gordon, a glossary of key terms, and a thorough index. *Media, Culture, and Politics in Indonesia* is about the incorporation of newly accessible mass media into practices of religious mediation in a variety of settings including the Pentecostal Church and Islamic movements, as well as the use of religious forms and image in the sphere of radio and cinema. *Media, Culture, and Politics in Indonesia* is about the institutions and policies that determine what Indonesians write, read, watch, and hear. It covers the print media, broadcast radio and television, computers and the internet, videos, films and music. This book argues that the texts of the media can be understood in two broad ways: 1. as records of a "national" culture and political hegemony constructed by Suharto's New Order and 2. as contradictory,

dissident, political and cultural aspirations that reflect the anxieties and preoccupations of Indonesian citizens. Media, Culture, and Politics, now brought back to life as a member of Equinox Publishing's Classic Indonesia series, explains what has escaped state control, not only by self-conscious resistance, but also because of the ownership patterns, technologies, and modes of consumption of media texts and institutions. The role of the media in the downfall of Suharto is examined and the legacy of his New Order is analyzed. This dynamic and innovative text is suitable for all students of Indonesian languages and culture, Asian studies, Southeast Asian studies, cultural studies, media studies, and contemporary politics. Krishna Sen is Professor of Asian Media and Dean of the Humanities Research Centre at Curtin University of Technology, Perth, Western Australia David T. Hill is Professor of Southeast Asian Studies and Fellow of the Asia Research Centre, Murdoch University, Perth, Western Australia

Hermeneutics can loosely be defined as the theory or philosophy of the interpretation of meaning. It is a central topic in the philosophy of the social sciences, the philosophy of art and language and in literary criticism. This book, first published in 1980, gives a detailed overview and analysis of the main strands of contemporary hermeneutical thought. It includes a number of readings in order to give the reader a first-hand acquaintance with the subjects and the debates within it. Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul "Ding" (4 Januari 1986) sampai yang terakhir "Asongan" (24 Februari 1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengenai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat menyakini demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle, adalah burung langka dalam sangkar intelektual modern Indonesia. Dia menolak tegas pengkotakan Timur-Barat. Dalam sejumlah Catatan Pinggir ini, kata Liddle, dikotomi Timur-Barat beberapa kali ditampik Goenawan. The studies included in the book examine quotidian acts of writing and their significance in a textually-mediated world. A Victorian epic transplanted to Japan, following a Korean family of immigrants through eight decades and four generations. Following his critically acclaimed *The Great Reformer*, Austen Ivereigh's colorful, clear-eyed portrait of Pope Francis takes us inside the Vatican's urgent debate over the future of the church in *Wounded Shepherd*. This deeply contextual biography centers on the tensions generated by the pope's attempt to turn the Church away from power and tradition and outwards to engage humanity with God's mercy. Through battles with corrupt

bankers and worldly cardinals, in turbulent meetings and on global trips, history's first Latin-American pope has attempted to reshape the Church to evangelize the contemporary age. At the same time, he has stirred other leaders' deep-seated fear that the Church is capitulating to modernity—leaders who have challenged his bid to create a more welcoming, attentive institution. Facing rebellions over his allowing sacraments for the divorced and his attempt to create a more "ecological" Catholicism, as well as a firestorm of criticism for the Church's record on sexual abuse, Francis emerges as a leader of remarkable vision and skill with a relentless spiritual focus—a leader who is at peace in the turmoil surrounding him. With entertaining anecdotes, insider accounts, and expert analysis, Ivereigh's journey through the key episodes of Francis's reform in Rome and the wider Church brings into sharp focus the frustrations and fury, as well as the joys and successes, of one of the most remarkable pontificates of the contemporary age. The Pilgrim, first published in 1969, has been hailed as Indonesia's first real modern novel. The main characters are an artist and a cemetery overseer; the former represents emotion and the latter signifies reason and the conflicting aspects of human nature. Despite the characters' antagonistic nature and cruelty, they are—in some ways—very similar. Both represent forms of creativity, philosophy, and art. Both exist outside conventional society. Both are searching for genuine human values and are aware of their shortcomings. In *The Pilgrim*, the chaos of thought and feelings represents life in its chaotic randomness. Secondary edition statement from table of contents. Structuralism, folklore, and mythology of Indonesian culture; social-anthropology viewpoint based on Lévi-Strauss paradigm. Nonfiction. Rumi is one of the great mystics of Islam. He founded in the XIIIth century a brotherhood in the Turkish city of Konya, famous for the use of music in the context of spiritual experience. To understand Rumi is to enter the world of Islam in its true sense: known as a "Sufi," Rumi is on par with the spiritual Masters of all great religious traditions. Written by Eva de Vitray-Meyerovitch, a French scholar who became a believer in Islam through her works on Sufism, this book is the best initiation not only to Rumi, but to Islamic thought: it is clear, elegant, scholarly, beautiful. It is an excellent tool for serious students

of Islam as well as for the general public who wants to approach Islamic civilization with the respect and competence it requires. It should be on the program of any studies dealing with Islam, comparative studies of religions, the values and politics of the Islamic world. It is a key to the underlying world-view which it is impossible to understand without comprehending its spiritual roots. But this book is also about the life and writings of one of the great poets of the world. A standard reference work, providing concise descriptions of biblical characters, terms, and places, as well as pertinent illustrations and charts Pulp brings together in one volume chapters on the bestseller, detective fiction, popular romance, science fiction and horror. It combines a lucid and accessible account of the cultural theories that have informed the study of popular fiction with detailed readings of particularly Jackie Collins, Jilly Cooper, Colin Dexter, William Gibson, Stephen King, Iain Banks, Terry McMillan and Walter Mosley. Scott McCracken argues that popular fiction serves a vital function in the late twentieth century: it provides us with the means to construct a workable sense of self in the face of the disorientating pressures of modernity. Pada 20 November 1979, sebuah peristiwa besar terjadi di Kota Suci Mekkah. Sekelompok orang bersenjata pimpinan Juhaiman al-Utaibi, seorang Islamis radikal, menguasai Masjid al-Haram. Mereka memprotes kebobrokan Pemerintah Arab Saudi dan aliansinya dengan Barat. Gejolak politik di tanah suci meledak. Lalu, baku tembak antara pengikut Juhaiman dengan tentara Arab Saudi pun tak terelakkan. Mulanya, tentara Saudi dibuat keteteran oleh perlawanan Juhaiman dan pengikutnya. Tetapi akhirnya, dengan bantuan beberapa pimpinan militer Prancis, tentara Saudi berhasil melumpuhkan "pemberontakan" kelompok Islam radikal tersebut. Sebagai hukumannya, Juhaiman dan pengikutnya yang tertangkap hidup-hidup kemudian dipenggal kepalanya--eksekusi penggal kepala ini dilaksanakan di beberapa kota di Saudi sebagai peringatan bagi siapa pun yang berusaha makar terhadap pemerintah. Merujuk fatwa para ulama berpengaruh, Pemerintah Saudi mendakwa mereka melakukan tindakan sesat: mendeklarasikan munculnya Imam Mahdi--yang tewas dalam pertempuran itu--sebagai penyelamat dunia; serta menguasai dan menjadikan Masjid al-Haram, tempat tersuci umat Muslim, sebagai medan pertempuran dan kekerasan, yang sangat jelas dilarang oleh agama. Peristiwa itu menjadi bagian penting dari sejarah modern Kota Mekkah. Meski demikian, kebanyakan orang, terutama kaum Muslim, tak paham apa yang sejatinya terjadi saat itu. Maklum, ketika peristiwa itu berlangsung, Pemerintah Saudi melarang keras media massa meliput dan memberitakannya. Tak hanya itu, jaringan telepon, telegram, dan surat-menyurat pun diputus. Alhasil, tak ada celah bagi siapa pun untuk dapat mengakses peristiwa itu dari luar tempat kejadian. Pada tahun 2006, dua puluh tahun kemudian, Yaroslav Trofimov berusaha menyusun kembali serpihan sejarah atas kejadian itu. Untuk menyibak detail peristiwa yang tak terkuak khalayak itu, Trofimov memburu sumber-sumber penting dan tepercaya, antara lain: pelaku 'gerakan 1979' yang masih hidup; Paul Barril, kepala misi pasukan

Francis saat itu; tentara Arab Saudi; Perpustakaan British, satu-satunya tempat di Eropa yang menyimpan pelbagai surat kabar Saudi tahun 1979; arsip Pemerintah AS dan Inggris yang berisi laporan rahasia dari para diplomat dan mata-mata; serta CIA dan British Foreign Office. Para pengamat politik dan sejarawan menganggap kejadian itu sebagai insiden lokal semata dan karena itu tak bersangkut-paut dengan peristiwa internasional yang belakangan merebak: terorisme. Tetapi penulis buku ini, Yaroslav Trofimov, berpendapat sebaliknya. Menurutnya, peristiwa itu merupakan akar sejarah gerakan terorisme global, terutama yang dimotori al-Qaeda. Siapa dan di mana Osama Bin Laden kala itu, sehingga petinggi al-Qaeda ini dihubungkan-kaitkan dengan peristiwa tersebut? Padahal ketika peristiwa itu terjadi, keluarga besar Bin Laden termasuk dalam barisan Pemerintah Kerajaan Arab Saudi yang mendukung penumpasan gerakan 1979.

<p>We live in a period of accelerating change. New trends, technologies and crisis emerge rapidly and transform familiar social and political landscapes. Established and cherished ideals, with deep historical roots, can be overturned overnight. Unconventional and uncommon notions and events can appear as though from nowhere, proliferate, and become dominant. The last few years alone have witnessed the emergence of populism and the far right in Europe and the US, Brexit, cracks in the European Union, cyber wars accompanied by the re-emergence of a cold war. China as an increasingly dominant new superpower. Pandemics like the Ebola and Zika viruses. Climate change leading to extreme weather events. Driverless cars. AI. 'Fake News'. 'Alternative Facts'. 'Post-Truth'. 'Disruptive technologies' that disrupt and often corrupt everything. Everything seems to be in a state of flux, nothing can be trusted. All that we regard as normal is melting away right before us.</p><p>
</p><p>The postnormal times theory attempts to make sense of a rapidly changing world, where uncertainty is the dominant theme and ignorance has become a valuable commodity. The Postnormal Times Reader is a pioneering anthology of writings on the contradictory, complex and chaotic nature of our era. It covers the origins, theory and methods of postnormal times; and examines a host of issues, ranging from climate change, governance, Middle East to religion and science, from the perspective of postnormal times. By mapping some of the key local and global issues of our transitional age, the Reader suggests a way of navigating our turbulent futures.</p> This book covers the basic elements of linguistics in a lucid style, taking a subject that is generally considered quite complicated, and making it accessible to virtually anyone who requires a basic understanding of it. The book's self-teaching approach provides students and specialists in fields neighboring linguistics with a basic introduction to the principles and methods of linguistic theory. Concepts are defined and illustrated simply. Non-linguistics majors will find this book comprehensive and

clear. For anyone with an interest in phonetics and language. A prehistory of today's humanities, from ancient Greece to the early twentieth century. Many today do not recognize the word, but "philology" was for centuries nearly synonymous with humanistic intellectual life, encompassing not only the study of Greek and Roman literature and the Bible but also all other studies of language and literature, as well as history, culture, art, and more. In short, philology was the queen of the human sciences. How did it become little more than an archaic word? In *Philology*, the first history of Western humanistic learning as a connected whole ever published in English, James Turner tells the fascinating, forgotten story of how the study of languages and texts led to the modern humanities and the modern university. The humanities today face a crisis of relevance, if not of meaning and purpose. Understanding their common origins—and what they still share—has never been more urgent. Featuring bands such as the Ramones and Nirvana, this history of punk and grunge details the seminal bands of each movement, as well as looking at the political and social trends which helped to shape the music. "Once celebrated in the Western media as a shining example of a 'liberal' and 'tolerant' Islam, Indonesia since the end of the Soeharto regime (May 1998) has witnessed a variety of developments that bespeak a conservative turn in the country's Muslim politics. In this timely collection of original essays, Martin van Bruinessen, our most distinguished senior Western scholar of Indonesian Islam, and four leading Indonesian Muslim scholars explore and explain these developments. Each chapter examines recent trends from a strategic institutional perch: the Council of Indonesian Muslim scholars, the reformist Muhammadiyah, South Sulawesi's Committee for the Implementation of Islamic Shari'a, and radical Islamism in Solo. With van Bruinessen's brilliantly synthetic introduction and conclusion, these essays shed a bright light on what Indonesian Muslim politics was and where it seems to be going. The analysis is complex and by no means uniformly dire. For readers interested in Indonesian Muslim politics, and for analysts interested in the dialectical interplay of progressive and conservative Islam, this book is fascinating and essential reading." -Robert Hefner, Director Institute on Culture, Religion, and World Affairs, Boston University In this presentation, "each theory is presented in a common format that offers not only biographical background and exposition of its main ideas, but also comparative analysis and critical assessment."--Jacket. Developed in almost thirty years of classroom experience, this book is designed to introduce students and other readers to the psychological study of religion. Robert W. Crapps deals with the major questions and figures that have dominated the psychological study of religion over the past century, dividing the discussion into four parts. Two chapters in part one suggest the problems and possibilities for the psychological study of religion in light of the nature of religion and the scientific method. Part two sketches the contributions to the study of religion of three intellectual currents in contemporary psychology: psychoanalysis, behaviorism, and humanistic psychology. part three explores the relationship between religion and human development, while part four directs attention to religious lifestyles and that weave differentiated parts of human experience into a cohesive whole. -- Publisher description. "Based on a doctoral dissertation submitted to the Australian National University in 1967." Beyond Oligarchy is a collection of essays by leading scholars of contemporary Indonesian politics and society, each addressing effects of material inequality on political power and contestation in democratic Indonesia. The contributors assess how critical concepts in the study of politics—oligarchy, inequality, power, democracy, and others—can be used to characterize the Indonesian case, and in turn, how the Indonesian experience informs conceptual and analytical debates in political science and related disciplines. In bringing together experts from around the world to engage with these themes, Beyond Oligarchy reclaims a tradition of focused intellectual debate across scholarly communities in Indonesian studies. The collapse of Indonesia's New Order has proven a critical juncture in Indonesian political studies, launching new analyses about the drivers of regime change and the character of Indonesian democracy. It has also prompted a new groundswell of theoretical reflection among Indonesianists on concepts such as representation, competition, power, and inequality. As such, the onset of Indonesia's second democratic period represents more than just new point of departure for comparative analyses of Indonesia as a democratizing state; it has also served as a catalyst for theoretical and conceptual development. The Art of Anthropology collects together the most influential of Gell's writings, which span the past two decades, with a new introductory chapter written by Gell. The essays vividly demonstrate Gell's theoretical and empirical interests and his distinctive contribution to several key areas of current anthropological enquiry. A central theme of the essays is Gel's highly original exploration of diagrammatic imagery as the site where social relations and cognitive processes converge and crystallise. Gell tracks this imagery across studies of tribal market transactions, dance forms, the iconicity of language and his most recent and groundbreaking

analyses of artworks. Written with Gell's characteristic fluidity and grace and generously illustrated with Gell's original drawings and diagrams, the book will interest art historians, sociologists and geographers no less than anthropologists, challenging, as it does, established ideas about exchange, representation, aesthetics, cognition and spatial and temporal processes. In applying the standards of modern literary criticism to medieval Arabic literature, Andras Hamori concentrates on those aspects of the literature that appear most alien to modern Western taste: the limitation of themes, the sedimentation with conventions, and the use of elusive patterns of composition. The first part of the book approaches Arabic literature from the historical point of view, concentrating on the transformations in poetic genres and poetic attitudes towards time and society in the literature between the sixth and the tenth centuries. The problems of poetic technique are then discussed, with special emphasis on poetic unity and the use of conventions. The third part of the book deals with methods of composition in prose through an examination of the orders and disorders in two tales from the Arabian Nights. Originally published in 1974.
