A Family Outing in the Atlantic
Feb 10 2021 When she set off
to cross the Atlantic as part of
a delivery crew, Jill Dickin
Schinas had no idea that she
was embarking on a whole new
life, but within a week of
setting out she and the skipper
were making plans for a
journey to Cape Horn. One year

later the couple were on their
way but had detoured up the
Amazon to get married. Two
years after that they were
crossing the Atlantic again, this
time from the Caribbean and
this time with the ship's
company enlarged by the
addition of a two year old son
and a babe in arms. Together
the little family then headed
directly for the Falkland
Islands and the southern tip of

South America - travelling via the Bahamas, the Azores, Portugal, the Canaries, Cape Verde, Senegal, Guinea Bissau, Guinea Conakry, Cote d'Ivoire, Ghana, Sao Tome and Principe, Uruguay, Argentina, and various tenanted and untenanted islets and lumps of rock cast adrift in the Atlantic Ocean. Seven years after setting out, they almost reached their destination... On the face of it, this book is a travelogue, but it is also a portrait of the cruising lifestyle- the hand-to-mouth, alternative lifestyle, not the early-retirement luxury cruise. Yes, we were bound for Cape Horn... in as much as we had a destination, this indeed was it.

But we were in no great hurry, and even this goal was viewed as little more than a staging post on our journey, for we meant to journey indefinitely. Truly, it was not a place but a lifestyle which we were setting forth to find. The family's adventures range from fighting gales and battling with immigration officials, to exploring uncharted African waters and abandoning ship to board a chopper via the winch cable. There is much in here that will be of value to other yachtsmen and other travellers, and heaps which will appeal to armchair voyagers and to families seeking to turn away from the nine-to-five motorway and tread a road of their own.

Contains 31 pen-and-ink drawings and cartoons. Includes a brief glossary for people not conversant with sailing terminology. By the author of Kids in the Cockpit (a guide to sailing and cruising with children). The Schinas family are talented people. There's nothing on the planet that Nick can't fix, while Jill is an artist of character. The children are developing in the same mould, but the overriding feature of all their lives and the guiding spirit of this book, is their self-sufficiency and courage to make their own choices, come fair weather or foul. Casting fate to the ocean winds without visible means of support in the third millennium

demands a lot more guts than ever it did thirty years ago. Keeping going, despite producing three fine children and surviving a capsized off the Falklands that ended on the winch cable of an RAF helicopter, shows the true spirit of seafaring. TOM CUNLIFFE

Equatorial Rhythms Aug 07

2020 Equatorial Rhythms is the story of a coast guard seaman. This young man's painful past and disconcerting present intersect with his suddenly frightening, uncertain future. This complex tale, told in a straightforward poetic style, examines life aboard ship with all it's unique friendships, hatreds, humor and violence, a life skillfully contrasted with the backdrop of the vast, eternal wildness of the sea.

Noise Jun 16 2021 Prehistoric
drummers used natural
acoustics to recreate natural
sound. In classical Europe,
orators turned the human voice
into a lyrical instrument. In
Buddhist temples, the icons'
ears were exaggerated to
represent their spiritual power.
And in modern metropolises we
are battered by the roar of
sound that surrounds us. In the

first narrative history of the subject which puts humans at its centre, and following the author's major BBC Radio 4 series Noise, acclaimed historian David Hendy describes the history of noise - which is also the history of listening. As he puts it: 'By thinking about sound and listening, I want to get closer to what it felt like to live in the past.' This unusual book reveals fascinating changes in how we have understood our fellow human beings and the world around us. For although we might see ourselves inhabiting a visual world, our lives are shaped by our need to hear and be heard.

Research Mosaics of Language Studies in Asia Differences and Diversity (Penerbit USM) Jul 18 2021 This book gives readers a

present and critical view of different language and linguistic issues in selected Asian contexts. The language aspect of the manuscript explores various areas of English language learning and teaching while the linguistic aspect looks at different fields such as sociolinguistics, semantics, stylistics, corpus-based studies, translation studies and cultural studies. These aspects also provide distinct tangents in researching language for they offer significant points of view and outcomes in understanding the influence and/or the function of cultures when dealing with either spoken or written discourses involving native or

non-native speakers. Such dynamics are instrumental in bringing about wider range of topics pertinent to the transdisciplinary nature of the current research theme in this part of the world. Substantially, the major sub-disciplines included in the manuscript frame both theoretical and hands-on implications for more rigorous innovations and expansions in the respective area of investigation.
